Subject: RE: John Vertente Blvd. - Memo and Plans

Rich,

Please provide the written documentation from Dr. Larson and Dr. Golet that states that clearcutting to the edge of a BVW is better for wildlife than leaving an undisturbed 25' canopy between the edge of the BVW and the edge of the shrub/herbaceous zone/meadow zone.

Subject: John Vertente Blvd. - Memo and Plans

Hello Sarah:

Attached are a memo and plans from Rich regarding John Vertente Blvd.

Thanks,
Genny

Genevieve Reynolds
