## MEMORANDUM

TO: CONSERVATION COMMISSION  
CITY OF NEW BEDFORD

FROM: ALISON CESAR, PROJECT ENGINEER 

DATE: JULY 18, 2018

SUBJECT: **DEP FILE # SE49-0778**  
**209 THEODORE RICE BOULEVARD**

At the request of South Coast Development, LLC., we hereby respectfully request to amend the Order of Conditions for the subject project.

An Order of Conditions was issued on December 11, 2017, recorded at the Bristol County (South District) Registry of Deeds in book 12314 page 39. For the purpose of simplifying construction, the Applicant proposes to change the previously approved headwalls to flared ends along the Braley Road entrance. The currently proposed wetland alteration area would be 50 square feet larger than the previously approved wetland alteration, but would not exceed 5,000 square feet of wetland area to be replicated. The increase in wetland alteration area would still be substantially replaced by the previously approved replication area. It is in our professional opinion that such a change would simplify construction and would not be more detrimental to the surrounding wetlands than the previously granted Order of Conditions.

Thank you in advance for your consideration of this request.
