New Bedford Conservation Commission
133 Williams Street
New Bedford, MA 02740

**RE: FILE #SE49-0692
CARDINAL PLACE (AVA'S WAY) SUBDIVISION**

Dear Commission Members:

We have inspected the above referenced completed subdivision road with ancillary drainage grading and utilities. The enclosed plan shows the as-built condition. We have inspected the drainage system as required by the Permanent Stormwater System Operation and Maintenance Program's Sections 4.1 and 4.1.1. The entire drainage system is in good working condition and the Stormceptor is functioning and is not in need of being cleaned.

I hereby certify that the subdivision has been constructed in essential compliance with the Order of Conditions and the approved plans. We request that you issue a Certificate of Compliance.

Sincerely,
PRIME ENGINEERING, INC.

Richard J. Rheau, P.E., LSP
Chief Engineer
