**RE: REQUEST FOR CERTIFICATES OF COMPLIANCE FOR LOTS AT  
WHALERS WOODS**

Dear Commission Members

Enclosed is a submission package of requests for Certificates of Compliance for eight lots in Whalers Woods.

Enclosed is the following:

- 1.) Two full size sets of as-built plans showing all lots. One to be kept in the office and one for Sarah to use on her site walks.
- 2.) A spread sheet that presents the original subdivision lot numbers, the current assessors lot numbers, the DEP file numbers and the recording references.
- 3.) Eight separate packets for each lot for which a certificate is being requested. Each packets contains:
  - . A completed DEP request form
  - . A stamped engineer's certification letter
  - . An acknowledgment by the lot owner, as required by condition #50
  - . A reduced size as-built plan

The concept is that each of these four bulleted items will be filed in the individual lot files.

- 4.) A check for \$1,200 which is the filing fee based on \$150 per lot times 8 lots.

We look forward to conducting the site walk and the subsequent issuance of the Certificates of Compliance.

Sincerely,

PRIME ENGINEERING, INC.

Richard J. Rheaume  
President
