The Division of Marine Fisheries (*MarineFisheries*) has reviewed the Notice of Intent by the New Bedford Harbor Development Commission to construct and maintain an electrical shed and chain link fence to secure existing electrical utilities on Steamship Pier on New Bedford Harbor in the City of New Bedford, with respect to potential impacts to marine fisheries resources and habitat.

Based on the information provided, *MarineFisheries* has no recommendations on the proposed scope of work at this time.

Questions concerning this review may be directed to me at the phone number below.

Thank you for the opportunity to comment.
