From : T. O'Day Original Hangar Association  
New Bedford Airport.

To : New Bedford Conservation Commission.

Attn: Dennis Andette, Chairman

Subj: New Potential Hangar Construction; KEWB

1. As a long term aircraft owner out of New Bedford Regional Airport, I would like to express my support for the proposed new construction hangar project.
2. Although your responsibilities lie in conservation, and not development, if ever there was a time for conservationists and developers to work together, now is that time. As jobs and tax revenues are way down, and with government outlays way up, this development is the kind of activity our country needs as a bridge to getting back to normal economically.
3. Hopefully you are amenable to hearing out Mr. Shabot's proposed project with an open mind.  
Respectfully, *TODay*
