DEP File No.: SE49-0855
Book 13480 Page 265**

Dear, Members of the Commission:

On behalf of our client, Vaz Construction, we respectfully request that the New Bedford Environmental Stewardship consider issuing an amended order of conditions for SE49-0855. Since the original order of conditions was issued on October 28, 2020, the owner of the property has proposed a change to the layout of the house and driveway location that was previously approved by commission.

Farland Corp (FC) revised the plans and eliminated the front enclosed porch per recommendation by the building department. The owners also wanted to flip the driveway to the north side of the lot. In doing so, it required us to slide the house south and move the bulkhead from the left rear corner to the right rear side of the house. This did pull the house and limit of work away from the wetland.

Thank you in advance for your time and consideration on this matter and please do not hesitate to contact me with any further questions.

If you should have any questions, please feel free to contact me.

Very truly yours,

FARLAND CORP., INC.
