Re: Request for Amended Order of Conditions at Cisco New Bedford

Dear Conservation Committee,

We are seeking to amend our order of conditions (SE049-0842) to permit us to install a seasonal (moveable) "lean-to" over the uncovered outdoor cooking area at Cisco New Bedford. The lean-to is about 192 square feet, approximately 16 feet by 12 feet. The purpose of the lean-to is to protect the food from the birds, as required by the Board of Health, and provide general protection from rain and sun. The lean-to has a slanted corrugated roof supported by 8 removeable columns secured into footings. The structure will be made from pressure treated wood.

Thank you for your consideration.

Sincerely,

A handwritten signature in dark ink, appearing to read 'S Silverstein', written over a light blue horizontal line.
