New Bedford, MA 02740

Hi Chancery,

I would like to request permission to replace the split rail fence that was installed to serve as the protected boundary to the wetlands at 33 Farland Circle. The fence has broke due to a wind storm we had and a tree fell on it. The fence is also starting to tip over in certain sections due to the way it was installed.

The split-rail fence will be replaced with white 6 feet tall fencing that matches the existing fence around the property. This also will protect wildlife such as deer or coyotes from enter the back yard that could attack the household and or pets.

While replacing the fence, I am proposing this will be done in close coordination and supervision by you or the Resilience and Environmental Stewardship office.

No boundaries or lines will change as a result of replacement.

See attached for picture reference.

Thank you,

Shawn W Edge
