

Dear Conservation Commission Agent Chancery Perks,

I am writing to you with the hope to engage a volunteer clean up of Sassaquin Pond. The intention is to safely remove man made debris and litter from the pond floor. I believe it is possible to safely remove debris from the water's edge and out to a depth of five or six feet. I am willing to supply heavy duty trash bags, collect filled trash bags and haul the trash to ABC disposal. I welcome and encourage area residents to join in. I suggest the weekend following the fourth of July (July 9 or 10) will be appropriate.

The main focus areas will be:

- The northern edges of the pond where trash enters the pond from Sassaquin Avenue
- The eastern edges near the cemetery
- Spot cleaning of other areas that have less debris to the south and west
- Encourage pond abutters to clean along their property edges
- Encourage residents to clean up the common areas

Perhaps we can conduct a site investigation.

I look forward to your guidance and suggestions as how to move forward.

Thank you for your consideration and support.

Eric Pequita
