#### **Form E-2**

#### **NOTICE OF RODENT EXTERMINATION PRIOR TO DEMOLITION REGULATIONS GOVERNING RODENT CONTROL: SECTION 8**

Building Permit # \_\_\_\_\_

It is hereby required that all buildings scheduled for demolitions be exterminated for rodents at least two weeks, and not to exceed three weeks, prior to the demolition. If demolition cannot be completed within three weeks after extermination the owner, or demolition agent, must contact the Health Department for reinspection of the property.

If variations in the above procedures are necessary, approval of variations must be received prior to the initiation of the extermination procedures. Approval of extermination procedures, or variation thereof, must be received from the Health Department prior to any extermination and subsequent demolitions.

I hereby certify that rodent extermination procedures will commence (unless waived) at the structure located at: \_\_\_\_\_  
(address)

on date \_\_\_\_\_ and demolition will be completed by no later than

date \_\_\_\_\_ / \_\_\_\_\_
