Project: Eighteen and Union

New Bedford, MA

Re: Construction Control Document

- Republic Services will be supplying all trash containers and hauling services.
- Trash chutes will be utilized for all demolition and trash removal for 2nd, 3rd and 4th floors.
- Trash containers will be covered as needed to avoid bird/pest activity.
- Dust control will be provided as necessary throughout the project.
- Asbestos abatement has been conducted by SAGE Environmental.
- All identified asbestos will be removed and handed by General Environmental Services, Inc.
- All concrete that is disturbed will be replaced to City of New Bedford specifications.
