

IX. HOMEOWNER LICENSE EXEMPTION

Supplement #1

The current exemption for "homeowner" was extended to include owner-occupied dwellings of two units or less and to allow such homeowners to engage an individual for hire who does not possess a license, provided that the owner acts as supervisor. (State Building Code Section 110.5)

DEFINITION OF HOMEOWNER:

Person(s) who own a parcel of land on which he/she resides or intends to reside, on which there is, or is intended to be, a one to two family dwelling, attached or detached structures accessory to such use and /or farm structures. A person who constructs more than one home in a two-year period shall not be considered a homeowner. Such "homeowner shall submit to the Building Official, on a form acceptable to the Building Official, that he/she shall be responsible for all such work performed under the building permit. (Section 110.5)

The undersigned "homeowner assumes responsibility for compliance with the State Building Code and other applicable codes, ordinance, rules and regulations, and will comply with the City of New Bedford Building Department minimum inspection procedures and requirements.

Number of Parking Spaces Provided = 9 Parking Spaces

Number of Parking Spaces Required for Relief = 10 Parking Spaces

2700. - DIMENSIONAL REGULATIONS.

2710. **General.** No structure shall be erected or used, premises used, or lot changed in size or shape except in conformity with the requirements of this Section, unless exempted by this Ordinance or by statute.

2711. Lot change. No existing conforming or nonconforming lot shall be changed in size or shape except through a public land taking or donation for road widening, drainage, utility improvements or except where otherwise permitted herein, so as to violate the provisions of this Ordinance with respect to the size of lots or yards or to create a nonconformity or increase the degree of nonconformity that presently exists.

2712. Merger of lots. Adjacent lots held in common ownership on or after the effective date of this Section shall be treated as a single lot for zoning purposes so as to minimize nonconformities with the dimensional requirements of this Ordinance. Notwithstanding the previous sentence, adjacent lots in common ownership may be treated as separate lots for zoning purposes upon a finding by the zoning enforcement officer that the owner of said lots has expressly exhibited the intent to maintain the lots as separate. In making said finding the zoning enforcement officer shall rely on the following factors:

2712.a. The existence and maintenance of walls or fences along the original lot lines;

2712.b. The fact that the lots are separately assessed for tax purposes;

2712.c. The placement of structures on the various lots.

The manner in which said lots were acquired or the fact that said lots were separately described on a deed shall not be considered by the zoning enforcement officer in making said finding.

2713. Recorded Lots. A lot or parcel of land having an area or frontage of lesser amounts than required in the following schedule of dimensional requirements may be considered as satisfying the area and frontage requirements of this Section provided such lot or parcel of land was shown on a plan or described in a duly recorded deed or registered at the time of adoption of this Ordinance and did not at the time of adoptions of adjoin other land of the same owner available for use in connection with such lot or parcel.

(Ord. of 12-23-03, § 1)

2720. **Table of Dimensional Requirements.** See Appendix B.

(Ord. of 12-23-03, § 1)

2730. **Dimensional Variation.** The Board of Appeals may vary otherwise applicable dimensional requirements pertaining to frontage, lot area, building height and sidelines upon finding that owing to circumstances relating to the soil conditions, shape, or topography of such land or structures and especially affecting such land or structures but not affecting generally the zoning district in which it is located, a literal enforcement of the provisions of the ordinance or by-law would involve substantial hardship, financial or otherwise, to the petitioner or appellant, and that desirable relief may be granted without substantial detriment to the public good and without nullifying or substantially derogating from the intent or purpose of such ordinance or by-law.

(Ord. of 12-23-03, § 1)

2740. Vision Clearance on Corner Lots in Residence Districts. On a corner lot no fence, wall or structure more than three and one-half (3½) feet high above the plane of the established grades of the streets shall be erected on a front or side yard herein established which is included within the street lines of the intersecting streets and a straight line connecting said street lines at points which are twenty (20) feet distant from their point of intersection, measured along said street line, and no trees or hedges which will materially obstruct the view of a driver of a vehicle approaching the street intersection shall be placed or maintained within such area.

(Ord. of 12-23-03, § 1)

2750. Yards in Residence Districts.

2751. Front Yards. No story or part of any building except projecting eaves or uncovered steps shall be erected nearer to the street line of any street on which it fronts than the average alignment of the corresponding stories or parts of existing buildings within two hundred (200) feet on each side of the lot and within the same block and district. Where there is a building on one or both of the adjoining lots, the front yard for a building shall have a depth equal to the average of the front yard depths of the two (2) adjoining lots. A lot without a building shall be counted as having a front yard of the depth required by this Ordinance. If there are no existing buildings on the same side of the street, the average setback alignment of corresponding stories within two hundred (200) feet on each side of and directly opposite the lot shall govern. Nothing in this Ordinance shall require any story or part of a building to set back more than fifteen (15) feet from any street line. One street frontage of a corner lot shall be exempt from these provisions as provided in subsection 2752. The front yard of a lot shall remain clear of debris and junk.

2752. Where the alignment of a building is not controlled by subsection 2751, between every building and the line of the street upon which it fronts there shall be a front yard of a clear depth of fifteen (15) feet, except that on one side of a corner lot a yard of a clear depth of not less than ten (10) feet shall be provided, in which case this distance shall not be considered in determining the front yard depths on such street.

2753. Rear Yards. There shall be a rear yard on every lot and it shall be at least thirty (30) feet deep behind a dwelling, except that a ground story deck or porch, without a permanent roof, a patio, or a pool (including any projections therefrom) may extend to six (6) feet of a rear lot line. An unattached private garage may extend to four feet of a rear yard. A storage shed may extend to eighteen (18) inches of a rear yard unless a fence is erected on the property along the rear yard line. In such case the storage shed may extend to eighteen (18) inches of the fence or fence post whichever is closest. Unless referenced in this Code, nothing may be placed or constructed in or upon the ground within six (6) feet of a rear lot line. Notwithstanding the previous sentence, a fence may be constructed near or along a rear lot line and vegetation may also be planted within six (6) feet of a rear lot line.

2754. Where a lot is more than one hundred (100) feet deep, one-half (½) of the additional depth of the lot in excess of one hundred (100) feet shall be added to said rear yard depth; but in no case shall a rear yard depth in excess of forty (40) feet be required. The setbacks referenced in the previous section shall also apply to this Section.

2755. **Side Yards.** There shall be a side yard on every lot and it shall be at least ten (10) feet on one side and twelve (12) feet on the other side. The side yard shall be unobstructed from the line of the street to the rear lot line except that open porches, decks, steps, patios and pools (including any projections therefrom), which are located behind the dwelling within the rear yard, may extend to six (6) feet of a side lot line, driveways may extend to four (4) feet of a side lot line and storage sheds, which are located behind the dwelling within the rear yard may extend to eighteen (18) inches of a side yard unless a fence is erected on the property along the side yard line. In such case the storage shed may extend eighteen (18) inches of the fence or fence post whichever is closest. For all driveways, including those regulated under Section 2756, the area between a driveway and the side lot line shall be of a different material than the material used for the driveway and shall not be covered with an impervious surface or crushed stone.

Notwithstanding any provision to the contrary, any driveway existing prior to April 15, 2009, that is made of a material that creates an impervious surface, may be permitted for repair, resurfacing or reconstruction with substantially the same type of material provided that the dimensions of the driveway are not increased and the location of the driveway layout is not altered.

2756. **Special Driveway Side Yard Requirements.** For existing dwellings on lot sizes of less than five thousand (5,000) square feet, driveways shall not extend to the side lot line closer than ten (10) percent of the distance between the side lot line and the principle dwelling. For any driveway in excess of thirteen (13) feet in width, the provisions of Section 2755 regulating driveway setbacks shall apply and this section shall not apply.

(Ord. of 12-23-03, § 1; Ord. of 4-15-10, § 1; Ord. of 10-20-11, § 1; Ord. of 1-15-13, §§ 1, 2)

2760. **Cornices and Belt Courses.**

2761. A cornice shall not project more than one-third (1/3) of the width of a required open space.

2762. A belt course or other ornamental feature shall not project more than nine (9) inches into a required open space.

(Ord. of 12-23-03, § 1)

2770. **Courts.**

2771. If any part of a story of a nonresidence building is used for offices, studios or workshops which are not lighted from the street or the rear yard, there shall be a court starting not more than fifty (50) feet from the main exterior walls of that story.

2772. If any part of a story is used for living or sleeping rooms which are not lighted from the street or the rear yard, such court shall be required starting not more than two (2) rooms or thirty-five (35) feet from the main exterior walls of that story.

2773. An inner court shall be at least one-third (1/3) as wide as it is high, measured from the sills of the lowest windows served by it to the average level of the tops of the enclosing walls, and shall be at least twice as long as its required width or of an equivalent area, but no court shall be less than ten (10) feet in width.

2774. The minimum width of an outer court shall be double that required in this Section for an inner court.

2775. A cornice or belt course shall not project more than six (6) inches into any inner court.

(Ord. of 12-23-03, § 1)

2780. **Height of Buildings.** The provisions governing the height of buildings in Appendix B shall apply to chimneys, cooling towers, flagpoles, elevator bulkheads, skylights, ventilators, and other necessary appurtenant features usually carried above roofs; to domes, stacks or spires and also to wireless communications facilities.

(Ord. of 12-23-03, § 1)

					35% for uses allowed in residential districts; 0 for other uses				

¹Provided, however, that no part of any building shall be erected to a height in excess of $1\frac{3}{4}$ times the horizontal distance from its face to the opposite street line.

²Provided, however, that no story or part of any building except projecting eaves or uncovered steps shall be erected nearer to the street line of any street on which it fronts than the average alignment of the corresponding stories or parts of existing buildings within two hundred (200) feet on each side of the lot and within the same block and district. Where there is a building on one or both of the adjoining lots, the front yard for a building shall have a depth equal to the average of the front yard depths of the two (2) adjoining lots. A lot without a building shall be counted as having a front yard of the depth required by this chapter. If there are no existing buildings on the same side of the street, the average setback alignment of corresponding stories within two hundred (200) feet on each side of and directly opposite the lot shall govern. One street frontage of a corner lot shall have a clear depth of no less than ten (10) feet, in which case this distance shall not be considered in determining the front yard depths on such street. Nothing in this chapter shall require any building hereafter erected between two (2) existing buildings or immediately adjacent lots to set back from the street a greater distance than that one of such two (2) existing buildings which is farther from the street line.

(Ord. of 12-23-03, § 1; Ord. of 11-27-13, § 1)

3100. - PARKING AND LOADING.

3110. Applicability. Every building erected, enlarged, converted, or relocated and each use or change of use of land shall be provided with off-street parking spaces and off-street loading spaces in accordance with Section 3130, Table of Parking Requirements.

3111. In the event of the enlargement of a structure existing on the effective date of the ordinance from which this Section is derived, or the construction or relocation of additional structures on a lot, after such effective date, the regulations of this Section shall apply only to the enlargement, construction or relocation thereof, except that any off-street parking and off-street loading facilities established to serve any buildings and any uses prior to such effective date shall not be reduced below the required number.

3112. For a building or premises used for combined purposes, the number of off-street parking spaces and off-street loading spaces shall be determined as the sum of the required number of spaces in each component of the combined use.

3113. Where the computation of required parking spaces and loading spaces result in a fractional number, the required parking spaces shall be the next whole number.

(Ord. of 12-23-03, § 1)

3120. Special Permit. Any parking or loading requirement set forth herein may be reduced upon the issuance of a special permit by the Planning Board if the Board finds that the reduction is not inconsistent with public health and safety, or that the reduction promotes a public benefit. Such cases might include:

3121. Use of a common parking lot for separate uses having peak demands occurring at different times;

3122. Age or other characteristics of occupants of the facility requiring parking which reduces auto usage;

3123. Peculiarities of the use which make usual measures of demand invalid;

3124. Availability of on-street parking or parking at nearby municipally owned facilities.

3125. Where a special permit is granted, a reserve area, to be maintained indefinitely as landscaped open space, may be required sufficient to accommodate the difference between the spaces otherwise required and the spaces reduced by special permit. The parking/site plan shall show (in dotted outline) how the reserve area would be laid out in to provide the otherwise required number of spaces.

(Ord. of 12-23-03, § 1)

3130. Table of Parking and Loading Requirements. See Appendix C.

(Ord. of 12-23-03, § 1)

APPENDIX C - TABLE OF PARKING AND LOADING REQUIREMENTS

USE	PARKING REQUIREMENTS	LOADING REQUIREMENTS
One-family dwelling Two-family dwelling Multi-family (3) or more per structure	Two (2) spaces per dwelling unit Two (2) spaces per dwelling unit	One (1) loading space for each multifamily dwelling containing more than ten (10) dwelling units, or more than twenty (20) housekeeping units
Hotel, motel, bed and breakfast, rooming or boarding or lodging house, tourist home, dormitories, or other non-family residence accommodations, excluding group homes	One (1) space per each employee per shift, who does not reside on the premises; one (1) space per guest room, dwelling parking requirements, if applicable	One (1) loading space for each building containing more than 20 guest rooms
Offices: General, professional, business, banks, medical clinics and laboratories, radio and television stations; office of non-profit educational, cultural, or charitable organizations	One (1) space per each 200 sq. ft. of gross floor area but not less than two (2) spaces for each business unit intended to occupy the premises. After 10,000 sq. ft. of gross floor area, one space for every 1,000 sq. ft. of gross floor area	One (1) loading space for each building containing 10,000 sq. ft. or more of gross floor area. Two (2) loading spaces for 100,000 sq. ft. or more of gross floor area

Fast-food drive-in, carry-out restaurants	One (1) space per each employee per shift for a minimum of five (5) spaces plus one (1) space per 100 sq. ft. of gross floor area with a minimum of twenty (20) spaces	One (1) loading space for each building
Businesses engaged in retail sale of goods and services, not elsewhere enumerated herein	One (1) space per each 200 sq. ft. of gross floor area, but not less than two (2) spaces for each business use intended to occupy the premises. After 20,000 sq. ft. gross floor area, one space per 400 sq. ft.	One loading space for each building containing more than 5,000 and less than 10,000 sq. ft. of gross floor area. Thereafter, one (1) additional loading space shall be required for each additional 25,000 sq. ft. of gross floor area
Businesses engaged in retail sale, rental, repair, servicing, storage and distribution of motor vehicles, trailers, campers, boats, furniture or building materials	One (1) space per each 400 sq. ft. of gross floor area, but not less than two (2) spaces for each business use intended to occupy the premises	
Hospital, convalescent homes, nursing homes, rest homes or homes for the aged	One (1) space per three (3) beds, three (3) space Drop-Off Zone.	One (1) loading space for each building containing 10,000 sq. ft. or more of gross floor area. Two (2) loading spaces for buildings containing 100,000 sq. ft. or more of gross floor area

5300. - SPECIAL PERMITS.

5310. Special Permit Granting Authority. The Zoning Board of Appeals, the Planning Board or the City Council shall act as the Special Permit Granting Authority under this Chapter as specifically designated in a particular Section or in accordance with the Specific Designations in the Table of Principal Use Regulations under Appendix A of this Chapter.

(Ord. of 12-23-03, § 1; Ord. of 12-8-05, § 1)

5320. Criteria. Special permits shall be granted by the special permit granting authority, unless otherwise specified herein, only upon its written determination that the benefit to the City and the neighborhood outweigh the adverse effects of the proposed use, taking into account the characteristics of the site and of the proposal in relation to that site. In addition to any specific factors that may be set forth in this Ordinance, the determination shall include consideration of each of the following:

5321. Social, economic, or community needs which are served by the proposal;

5322. Traffic flow and safety, including parking and loading;

5323. Adequacy of utilities and other public services;

5324. Neighborhood character and social structures;

5325. Impacts on the natural environment; and

5326. Potential fiscal impact, including impact on City services, tax base, and employment.

(Ord. of 12-23-03, § 1)

5330. Procedures. Applications for special permits shall be filed in accordance with the rules and regulations of the various special permit granting authorities, as may be applicable.

(Ord. of 12-23-03, § 1)

5340. Plans. An applicant for a special permit shall submit a plan in substantial conformance with the requirements of Section 5400, herein.

(Ord. of 12-23-03, § 1)

5350. Development Impact Statement (DIS). At the discretion of the special permit granting authority, the submittal of a development impact statement (DIS) may be required. The DIS shall be prepared by an interdisciplinary team including a Registered Landscape Architect or Architect, a Registered Professional or Civil Engineer, and a Registered Surveyor.

5351. Physical Environment.

(a)

Describe the general physical conditions of the site, including amounts and varieties of vegetation, general topography, unusual geologic, archeological, scenic and historical features or structures, location of significant viewpoints, stone walls, trees over sixteen (16) inches in diameter, trails and open space links, and indigenous wildlife.

- (b) Describe how the project will affect these conditions, providing a complete physical description of the project and its relationship to the immediate surrounding area.

5352. Surface Water and Subsurface Conditions.

- (a) Describe location, extent, and type of existing water and wetlands, including existing surface drainage characteristics, both within and adjacent to the site.
- (b) Describe any proposed alterations of shore lines, marshes, or seasonal wet areas.
- (c) Describe any limitations imposed on the project by the site's soil and water conditions.
- (d) Describe the impact upon ground and surface water quality and recharge, including estimated phosphate and nitrate loading on groundwater and surface water from septic tanks, lawn fertilizer, and other activities within the site.

5353. Circulation Systems.

Project the number of motor vehicles to enter depart the site per average day and peak hour. Also state the number of motor vehicles to use streets adjacent to the site per average day and peak hour. Such data shall be sufficient to enable the special permit granting authority to evaluate (i) existing traffic on streets adjacent to or approaching the site, (ii) traffic generated or resulting from the site, and (iii) the impact of such additional traffic on all ways within and providing access to the site. Actual study results, a description of the study methodology, and the name, address, and telephone number of the person responsible for implementing the study, shall be attached to the DIS.

5354. Support Systems.

- (a) Water Distribution: Discuss the types of wells or water system proposed for the site, means of providing water for firefighting, and any problems unique to the site.
- (b) Sewage Disposal: Discuss the type of on-site or sewer system to be used, suitability of soils, procedures and results of percolation tests, and evaluate impact of disposal methods on surface and groundwater.
- (c) Refuse Disposal: Discuss the location and type of facilities, the impact on existing City refuse disposal capacity, hazardous materials requiring special precautions.
- (d) Fire Protection: Discuss the type, location, and capacity of fuel storage facilities or other flammables, distance to fire station, and adequacy of existing firefighting equipment to confront potential fires on the proposed site.
- (e)

Recreation: Discuss the distance to and type of public facilities to be used by residents of the proposed site, and the type of private recreation facilities to be provided on the site.

- (f) Schools: Project the increase to the student population for nursery, elementary, junior high school, and high school levels, also indicating present enrollment in the nearest public schools serving these categories of students.

5355. Phasing. Where development of the site will be phased over more than one year, indicate the following:

- (a) Describe the methods to be used during construction to control erosion and sedimentation through use of sediment basins, mulching, matting, temporary vegetation, or covering of soil stockpiles. Describe the approximate size and location of portion of the parcel to be cleared at any given time and length of time of exposure.
- (b) Describe the phased construction, if any, of any required public improvements, and how such improvements are to be integrated into site development.

(Ord. of 12-23-03, § 1)

5360. Conditions. Special permits may be granted with such reasonable conditions, safeguards, or limitations on time or use, including performance guarantees, as the special permit granting authority may deem necessary to serve the purposes of this Ordinance.

(Ord. of 12-23-03, § 1)

5370. Lapse. Special permits shall lapse if a substantial use thereof or construction thereunder has not begun, except for good cause, within twelve (12) months following the filing of the special permit approval (plus such time required to pursue or await the determination of an appeal referred to in M.G.L.A. c. 40A, § 17, from the grant thereof) with the City Clerk.

(Ord. of 12-23-03, § 1)

5380. Regulations. The special permit granting authority may adopt rules and regulations for the administration of this Section.

(Ord. of 12-23-03, § 1)

5390. Fees. The special permit granting authority may adopt reasonable administrative fees and technical review fees for applications for special permits.

(Ord. of 12-23-03, § 1)

Omission of reference to any provision shall not nullify any

requirement of this code nor exempt any structure from such requirement.

The applicants understands and warrant that they will comply with all pertinent federal and state statutes, local ordinances and all federal, state, and local regulations, including those of the Architectural Barriers board, Department of Environmental Protection Agency and may be forwarded for review to all pertinent local city agencies which may express specific concerns. It is understood that the issuance of a permit shall not serve as an acceptance or acknowledgment of compliance nor exempt any structure from such requirement. The permit shall be a license to proceed with the work and shall not be construed as authority to violate, cancel, or set aside any of the provisions of the State Building Code or local code of ordinances, except as specifically stipulated by modification or legally granted variation in accordance with Section 122.0 of State Building Code or local code of ordinances.

I have read the above and sign under pain and penalty of perjury as to the truth of all of the information and statements contained in sections I through IV of this application.

VII. WORKER'S COMPENSATION INSURANCE AFFIDAVIT

I,

(licensee/permittee) with a principal place of business/residence at:

(City/State/Zip) do hereby certify, under the pains and penalties of perjury, that:

☐ I am an employer providing worker's compensation coverage for my employees working on this job.

Insurance Company

Policy Number

☒ I am a sole proprietor and have no one working for me.

☐ I am a sole proprietor, general contractor, or homeowner and have hired the contractors listed below who have the following worker's compensation insurance policies:

Name of contractor

Insurance Company/policy number

Name of contractor

Insurance Company/policy number

☐ I am a homeowner performing all the work myself.

NOTE: Please be aware that while homeowners who employ persons to do maintenance, construction or repair work on a dwelling of not more than three units in which the homeowner also resides or on the grounds appurtenant thereto are not generally considered to be employers under the Workers' Compensation Act (GL C. 152, sect. 1(5)), application by a homeowner for a license or permit may evidence the legal status of an employer under the Workers' Compensation Act.

I understand that a copy of this statement will be forwarded to the Department of Industrial Accidents' Office of Insurance for coverage verification and that failure to secure coverage as required under Section 25A of MGL 152 can lead to the imposition of criminal penalties consisting of a fine of up to \$1500.00 and/or imprisonment of up to one year and civil penalties in the form of a Stop Work Order and a fine of \$100.00 a day against me.

*Any applicant that checks box #1 must also fill out the section below showing their workers' compensation policy information.

† Homeowners who submit this affidavit indicating they are doing all work and then hire outside contractors must submit a new affidavit indicating such.

‡ Contractors that check this box must attach an additional sheet showing the name of the sub-contractors and their workers' comp. policy information.

I am an employer that is providing workers' compensation insurance for my employees. Below is the policy and job site information.

Insurance Company Name: _____

Policy # or Self-ins. Lic. #: _____ Expiration Date: _____

Job Site Address: _____ City/State/Zip: _____

Attach a copy of the workers' compensation policy declaration page (showing the policy number and expiration date).

Failure to secure coverage as required under Section 25A of MGL c. 152 can lead to the imposition of criminal penalties of a fine up to \$1,500.00 and/or one-year imprisonment, as well as civil penalties in the form of a STOP WORK ORDER and a fine of up to \$250.00 a day against the violator. Be advised that a copy of this statement may be forwarded to the Office of Investigations of the DIA for insurance coverage verification.

I do hereby certify under the pains and penalties of perjury that the information provided above is true and correct.
