(Ord. of 12-23-03, § 1)

3250. Regulations Governing Particular Types of Signs.

3251. Wall signs. Wall sign shall mean and include any sign attached to or erected against a building or other structure with the face of the sign in a plane parallel to such building or other structures and not projecting more than twelve (12) inches therefrom. Such allowable area shall also include the length of the building, if on a corner lot, times two (2). This section shall not apply in the Central Business District (CBD) which is controlled by Section 3200A.

3253. Diagonal Walls. Where a wall upon which a wall sign is located is not parallel to the street toward which it faces, the length of the wall shall be calculated as the length of street frontage between two (2) lines developed perpendicular to the street line from the ends of the diagonal wall.

3254. Ground Signs. Ground sign shall mean and include any sign having as supports wood or metal columns, pipes, angle iron framing, masonry, plastic or any combination of these materials unattached to any building or other structure.

3259. Signs on nonconforming buildings. When a building used for business or industrial purposes exists in a residential district as a nonconforming use, wall signs in existence on the date of enactment of this Ordinance may be maintained, repaired or replaced provided in the latter case that the sign area is neither increased nor larger than would be allowed in a Mixed-Use Business district, whichever is smaller. Projecting, roof or ground signs are prohibited and cannot be replaced.

(Ord. of 12-23-03, § 1)

3260. Application for and Issuance of Permits. Upon application, the City Clerk may issue permits to the owner, lessee, or occupant of a building, structure or other support, for activities regulated by Section 3203, subject to the conditions, limitations and requirements of this Section. Every applicant for a permit shall sign an agreement on the application blank to observe and conform with the conditions, limitations and requirements, subject to which the permit is granted. The City Clerk shall not grant any such permit until such Clerk shall have submitted the application therefor to the Inspector of Buildings, and such Inspector shall have approved the definite location and construction thereof. In each application the specifications of the proposed construction shall be stated and said superintendent may require a plan thereof to be filed along with the application.

3261. Permit fee. A fee of one dollar (\$1.00) shall be charged by the City Clerk upon the issuance of any permit as required by the provisions of this Section.

5400. - SITE PLAN REVIEW.

5410. Purpose. The purpose of this Section is to provide for individual detailed review of development proposals which have an impact on the natural or built environment of the City in order to promote the health, safety and general welfare of the community; to ensure adequate parking, safe and accessible pedestrian and vehicular circulation; and to minimize traffic impact on City streets.

(Ord. of 12-23-03, § 1)

5420. Applicability. The following types of activities and uses require site plan review by the Planning Board:

(Ord. of 12-23-03, § 1; Ord. of 12-31-08, § 1)

5430. Procedures. Applicants for site plan approval shall submit seventeen (17) copies of the site plan to the Planning Board for distribution to City departments and commissions for their review. The Planning Board shall review and act upon the site plan, with such conditions as may be deemed appropriate and notify the applicant of its decision. In the event two (2) meetings have lapsed after the application for site plan approval is filed, without the Planning Board taking action on said site plan said Applicant may file a statement with the Board that the Board has received complete information in accordance with this Ordinance and has had adequate time to consider the Site Plan. Upon receiving said statement, the Planning Board shall act on said Site Plan at its next meeting, if said Board determines that the Board has, in fact, received complete information in accordance with this Ordinance. The decision of the Planning Board

shall be a vote of a majority of the members of the Planning Board and shall be in writing. No building permit, for activities requiring site plan approval, shall be issued by the Inspector of Buildings without the written approval of the site plan by the Planning Board.

5431. Application for Building Permit. An application for a building permit to perform work as set forth in Section 5410 available as of right shall be accompanied by an approved site plan.

5432. Application for Special Permit or Variance. The work described herein requires the approval of a site plan by the New Bedford Planning Board pursuant to Section 5400 of the Zoning Ordinance. Any conditions imposed in such site plan approval shall also be conditions of this special permit/variance.

5433. Where the Planning Board approves a site plan "with conditions", and said approved site plan accompanies a special permit or variance application to the Board of Appeals, the conditions imposed by the Planning Board shall be incorporated into the issuance, if any, of a special permit or variance by the Board of Appeals.

5434. Where the Planning Board serves as the special permit granting authority for proposed work, it shall consolidate its site plan review and special permit procedures.

5435. The applicant may request, and the Planning Board may grant by majority vote of its' membership, an extension of the time limits set forth herein.

5436. No deviation from an approved site plan shall be permitted without modification thereof.

5437. Site plan approval does not constitute a certification that the proposed plan conforms to applicable zoning regulations, wetland regulations and/or any other City, state or federal requirements that must be obtained prior to implementation the of elements of the site plan.

(Ord. of 12-23-03, § 1)

Dimensions and scales shall be adequate to determine that all requirements are met and to make a complete analysis and evaluation of the proposal. All plans shall have a minimum scale of 1" = 40'.

(Ord. of 12-23-03, § 1)

5480. Lapse. Site plan approval shall lapse after one year from the final approval if a substantial use in accordance with such approved plans has not commenced except for good cause. (Ord. of 12-23-03, § 1)
