IX. HOMEOWNER LICENSE EXEMPTION

Supplement #1

The current exemption for "homeowner" was extended to include owner-occupied dwellings of two units or less and to allow such homeowners to engage an individual for hire who does not possess a license, provided that the owner acts as supervisor. (State Building Code Section 110.5)

DEFINITION OF HOMEOWNER:

Person(s) who own a parcel of land on which he/she resides or intends to reside, on which there is, or is intended to be, a one to two family dwelling, attached or detached structures accessory to such use and /or farm structures. A person who constructs more than one home in a two-year period shall not be considered a homeowner. Such homeowner shall submit to the Building Official, on a form acceptable to the Building Official, that he/she shall be responsible for all such work performed under the building permits. (Section 110.5)

The undersigned homeowner assumes responsibility for compliance with the State Building Code and other applicable codes, ordinance, rules and regulations, and will comply with the City of New Bedford Building Department minimum inspection procedures and requirements.

SECTION 3000. - GENERAL REGULATIONS.

3100. - PARKING AND LOADING.

3110. **Applicability.** Every building erected, enlarged, converted, or relocated and each use or change of use of land shall be provided with off-street parking spaces and off-street loading spaces in accordance with Section 3130, Table of Parking Requirements.

3111. In the event of the enlargement of a structure existing on the effective date of the ordinance from which this Section is derived, or the construction or relocation of additional structures on a lot, after such effective date, the regulations of this Section shall apply only to the enlargement, construction or relocation thereof, except that any off-street parking and off-street loading facilities established to serve any buildings and any uses prior to such effective date shall not be reduced below the required number.

3112. For a building or premises used for combined purposes, the number of off-street parking spaces and off-street loading spaces shall be determined as the sum of the required number of spaces in each component of the combined use.

3113. Where the computation of required parking spaces and loading spaces result in a fractional number, the required parking spaces shall be the next whole number.

(Ord. of 12-23-03, § 1)

3120. **Special Permit.** Any parking or loading requirement set forth herein may be reduced upon the issuance of a special permit by the Planning Board if the Board finds that the reduction is not inconsistent with public health and safety, or that the reduction promotes a public benefit. Such cases might include:

3121. Use of a common parking lot for separate uses having peak demands occurring at different times;

3122. Age or other characteristics of occupants of the facility requiring parking which reduces auto usage;

3123. Peculiarities of the use which make usual measures of demand invalid;

3124. Availability of on-street parking or parking at nearby municipally owned facilities.

3125. Where a special permit is granted, a reserve area, to be maintained indefinitely as landscaped open space, may be required sufficient to accommodate the difference between the spaces otherwise required and the spaces reduced by special permit. The parking/site plan shall show (in dotted outline) how the reserve area would be laid out in to provide the otherwise required number of spaces.

(Ord. of 12-23-03, § 1)

3130. **Table of Parking and Loading Requirements.** See Appendix C.

(Ord. of 12-23-03, § 1)

3140. **Location and Layout of Parking and Loading Facilities.** Off-street parking and loading, for facilities other than single- or two-family residences, may be provided in structures or in the open air, and shall be subject to the following regulations pertaining to their layout and location:

3141. Parking spaces shall be located on the same lot as the building or use where they are intended to serve, except that they may be provided on an adjoining lot in the same ownership.

3142. Where the provisions of subsection 3141 cannot be satisfied and the parking lot contains five (5) or more required spaces, the required parking spaces may be located on a lot in the same ownership within two hundred (200) feet of the building or lot they are intended to serve.

3143. Parking space for three (3) or fewer vehicles may be provided in the form of a driveway on a lot; the improved surface may be extended to one foot of the side line.

3144. Where a drive or aisle, other than a street, is required to maneuver a vehicle into or out of a parking space, such drive or aisle shall be at least twenty-two (22) feet wide for parking spaces situated at right angles, or nearly right angles to the aisle. For parking spaces situated at an angle of thirty (30) to sixty (60) degrees to the aisle, the required width of the aisle shall be at least fifteen (15) feet.

3145. Open-air off-street parking facilities may be located in required front, rear and side yards, except that in a residential district, no open-air off-street parking space shall be located in front of the dwelling or principal building. Notwithstanding the previous sentence, in cases where a garage faces the frontage of the dwelling and is located beneath the dwelling, open-air off-street parking may be located in front of the dwelling in a residential district provided

that the dwelling is set back a minimum of twenty (20) feet from the front property line and provided that said parking occurs only within the driveway, the width of which shall not exceed the lesser of the width of said garage or eighteen (18) feet. Any driveway in a residential district, requiring more than one curb cut, shall require Site Plan Approval. No driveway in a residential district shall exceed eighteen (18) feet in width.

3146. When five (5) or more parking spaces are required on a lot, the provisions of Section 3300 shall apply. All spaces shall be laid out so that vehicles can enter or leave any parking space directly from a drive or aisle other than a street. Additionally, all spaces shall be laid out so the vehicles entering a street may do so facing the street.

3147. All parking spaces and loading areas or berths in the open-air and the access drives or aisles, shall be provided with a concrete or asphalt surface. Compacted gravel or stone shall be permitted only for single- or two-family residential dwellings.

3148. No off-street loading areas or berths shall be laid out in such a manner as will result in loading or unloading being carried on within a street right-of-way or other public property. Each area or berth shall be sufficient size as to accommodate the largest expected truck or tractor trailer common to the building use.

3149. Special Permit for Commercial Parking in Residential Districts. Commercial parking may be allowed on residentially zoned property, held in common ownership and located immediately adjacent to the commercial business to which it is to serve, upon the issuance of a special permit by the Zoning Board of Appeals, if the Board finds that said parking is not detrimental to public health and safety, and that said parking promotes a public benefit. A Special Permit for vehicular access to a building lot accessed from public way that does not constitute frontage of the lot. Upon the issuance of a special permit by the Zoning Board of Appeals, vehicular access may be allowed from a public way that does not constitute the legal frontage of the subject lot if said lot is residentially zoned, if the proposed vehicular access is for the purpose of accessing parking that is located beside or behind the dwelling or principal building, and if the Board finds that said vehicular access promotes a public benefit and is not detrimental to public health and safety. Notwithstanding Section 5240 of Chapter 9 of the Code of Ordinances or any other provision to the contrary, no fee of any kind shall be charged or imposed by the Special Permit Authority to the applicant of a Special Permit applied for under this Section.

(Ord. of 12-23-03, § 1; Ord. of 8-22-06, § 1)

3150. Size of Parking Space. A parking space shall be a rectangle at least nine (9) feet by twenty (20) feet exclusive of any required drive or aisle.

3151. The area of required off-street loading space is not to be included as off-street parking space in the computation of required off-street parking space.

(Ord. of 12-23-03, § 1)

CODE OF ORDINANCES

Chapter 9 - COMPREHENSIVE ZONING

APPENDIX C - TABLE OF PARKING AND LOADING REQUIREMENTS

USE	PARKING REQUIREMENTS	LOADING REQUIREMENTS
One-family dwelling Two-family dwelling Multi-family (3) or more per structure	Two (2) spaces per dwelling unit Two (2) spaces per dwelling unit	One (1) loading space for each multifamily dwelling containing more than ten (10) dwelling units, or more than twenty (20) housekeeping units
Hotel, motel, bed and breakfast, rooming or boarding or lodging house, tourist home, dormitories, or other non-family residence accommodations, excluding group homes	One (1) space per each employee per shift, who does not reside on the premises; one (1) space per guest room, dwelling parking requirements, if applicable	One (1) loading space for each building containing more than 20 guest rooms
Offices: General, professional, business, banks, medical clinics and laboratories, radio and television stations; office of non-profit educational, cultural, or charitable organizations	One (1) space per each 200 sq. ft. of gross floor area but not less than two (2) spaces for each business unit intended to occupy the premises. After 10,000 sq. ft. of gross floor area, one space for every 1,000 sq. ft. of gross floor area	One (1) loading space for each building containing 10,000 sq. ft. or more of gross floor area. Two (2) loading spaces for 100,000 sq. ft. or more of gross floor area
Fast-food drive-in, carry-out restaurants	One (1) space per each employee per shift for a minimum of five (5) spaces plus one (1) space per 100 sq. ft. of gross floor area with a minimum of twenty (20) spaces	One (1) loading space for each building
Businesses engaged in retail sale of goods and services, not elsewhere enumerated herein	One (1) space per each 200 sq. ft. of gross floor area, but not less than two (2) spaces for each business use intended to occupy the premises. After 20,000 sq. ft. gross floor area, one space per 400 sq. ft.	One loading space for each building containing more than 5,000 and less than 10,000 sq. ft. of gross floor area. Thereafter, one (1) additional loading space shall be required for each additional 25,000 sq. ft. of gross floor area
Businesses engaged in retail sale, rental, repair, servicing, storage and distribution of motor vehicles, trailers, campers, boats, furniture or building materials	One (1) space per each 400 sq. ft. of gross floor area, but not less than two (2) spaces for each business use intended to occupy the premises	

USE	PARKING REQUIREMENTS	LOADING REQUIREMENTS
Hospital, convalescent homes, nursing homes, rest homes or homes for the aged	One (1) space per three (3) beds, three (3) space Drop-Off Zone.	One (1) loading space for each building containing 10,000 sq. ft. or more of gross floor area. Two (2)
Places of assembly, including theaters, veterans, fraternal, social and recreational clubs and organizations not operated for a profit; facilities primarily for the education and instruction of persons sixteen (16) yrs. of age and older; taxi, bus & railroad passenger terminals; auditoriums, theaters, bowling alleys and dance halls; sports facilities; places of worship; funeral homes	One (1) space per five (5) seats for which the building is designed or one (1) spaces for each 200 sq. ft. of gross floor area whichever results in the greatest number	loading spaces for buildings containing 100,000 sq. ft. or more of gross floor area
Businesses engaged in the manufacturing, processing, assembly, fabrication of products, including research and testing laboratories and facilities	One (1) space per each 500 sq. ft. of gross floor area plus one (1) space for each vehicle used in conducting the business	Two (2) loading spaces for each building containing 10,000 sq. ft. of gross floor area. Thereafter, one (1) additional loading space shall be required for each additional 25,000
Businesses engaged in the warehousing and distribution of goods & materials including building & construction contractors, equipment & supplies on premises, motor freight terminal, facilities for storing & servicing of motor vehicles used in conducting a business or public transportation, industrial machinery & equipment, grain, petroleum products & junkyards	One (1) space per 1500 sq. ft. of gross floor area up to 15,000 sq. ft. thereafter, one (1) additional space for each 5,000 sq. ft. or portion thereof in excess of 15,000 sq. ft., plus one (1) space for each vehicle utilized in the business	sq. ft. of gross floor area or for each fifteen (15) feet of dock platform or opening in the building where the loading or unloading of commodities is intended to occur, whichever is the greatest
Schools, Adult Day Care Centers, Day Care Centers, excluding family day care homes	One (1) space for each employee in addition to three (3) space Drop-Off Zone	One (1) loading space for each building containing 10,000 sq. ft. or more of gross floor area. Two (2) loading spaces for buildings containing 100,000 sq. ft. or more of gross floor area
Group Homes	One (1) space for each employee per shift	One (1) loading space for each building containing more than twenty (20) guest rooms
Family Day Care Home, Large Family Day Care Home	One (1) space for each non-resident employee in addition to residential parking requirement	N/A
