IX. HOMEOWNER LICENSE EXEMPTION

Supplement #1

The current exemption for "homeowner" was extended to include owner-occupied dwellings of two units or less and to allow such homeowners to engage an individual for hire who does not possess a license, provided that the owner acts as supervisor. (State Building Code Section 110.5)

DEFINITION OF HOMEOWNER:

Person(s) who own a parcel of land on which he/she resides or intends to reside, on which there is, or is intended to be, a one to two family dwelling, attached or detached structures accessory to such use and /or farm structures. A person who constructs more than one home in a two-year period shall not be considered a homeowner. Such "homeowner shall submit to the Building Official, on a form acceptable to the Building Official, that he/she shall be responsible for all such work performed under the building permit. (Section 110.5)

The undersigned "homeowner assumes responsibility for compliance with the State Building Code and other applicable codes, ordinance, rules and regulations, and will comply with the City of New Bedford Building Department minimum inspection procedures and requirements.

(Ord. of 12-23-03, § 1)

2730. Dimensional Variation. The Board of Appeals may vary otherwise applicable dimensional requirements pertaining to frontage, lot area, building height and sidelines upon finding that owing to circumstances relating to the soil conditions, shape, or topography of such land or structures and especially affecting such land or structures but not affecting generally the zoning district in which it is located, a literal enforcement of the provisions of the ordinance or by-law would involve substantial hardship, financial or otherwise, to the petitioner or appellant, and that desirable relief may be granted without substantial detriment to the public good and without nullifying or substantially derogating from the intent or purpose of such ordinance or by-law.

(Ord. of 12-23-03, § 1)

2740. Vision Clearance on Corner Lots in Residence Districts. On a corner lot no fence, wall or structure more than three and one-half (3½) feet high above the plane of the established grades of the streets shall be erected on a front or side yard herein established which is included within the street lines of the intersecting streets and a straight line connecting said street lines at points which are twenty (20) feet distant from their point of intersection, measured along said street line, and no trees or hedges which will materially obstruct the view of a driver of a vehicle approaching the street intersection shall be placed or maintained within such area.

(Ord. of 12-23-03, § 1)

2750. Yards in Residence Districts.

2751. Front Yards. No story or part of any building except projecting eaves or uncovered steps shall be erected nearer to the street line of any street on which it fronts than the average alignment of the corresponding stories or parts of existing buildings within two hundred (200) feet on each side of the lot and within the same block and district. Where there is a building on one or both of the adjoining lots, the front yard for a building shall have a depth equal to the average of the front yard depths of the two (2) adjoining lots. A lot without a building shall be counted as having a front yard of the depth required by this Ordinance. If there are no existing buildings on the same side of the street, the average setback alignment of corresponding stories within two hundred (200) feet on each side of and directly opposite the lot shall govern. Nothing in this Ordinance shall require any story or part of a building to set back more than fifteen (15) feet from any street line. One street frontage of a corner lot shall be exempt from these provisions as provided in subsection 2752. The front yard of a lot shall remain clear of debris and junk.

2752. Where the alignment of a building is not controlled by subsection 2751, between every building and the line of the street upon which it fronts there shall be a front yard of a clear depth of fifteen (15) feet, except that on one side of a corner lot a yard of a clear depth of not less than ten (10) feet shall be provided, in which case this distance shall not be considered in determining the front yard depths on such street.

2753. Rear Yards. There shall be a rear yard on every lot and it shall be at least thirty (30) feet deep behind a dwelling, except that a ground story deck or porch, without a permanent roof, a patio, or a pool (including any projections therefrom) may extend to six (6) feet of a rear lot line. An unattached private garage may extend to four feet of a rear yard. A storage shed may extend to eighteen (18) inches of a rear yard unless a fence is erected on the property along the rear yard line. In such case the storage shed may extend to eighteen (18) inches of the fence or fence post whichever is closest. Unless referenced in this Code, nothing may be placed or constructed in or upon the ground within six (6) feet of a rear lot line. Notwithstanding the previous sentence, a fence may be constructed near or along a rear lot line and vegetation may also be planted within six (6) feet of a rear lot line.

2754. Where a lot is more than one hundred (100) feet deep, one-half ($\frac{1}{2}$) of the additional depth of the lot in excess of one hundred (100) feet shall be added to said rear yard depth; but in no case shall a rear yard depth in excess of forty (40) feet be required. The setbacks referenced in the previous section shall also apply to this Section.

2755. Side Yards. There shall be a side yard on every lot and it shall be at least ten (10) feet on one side and twelve (12) feet on the other side. The side yard shall be unobstructed from the line of the street to the rear lot line except that open porches, decks, steps, patios and pools (including any projections therefrom), which are located behind the dwelling within the rear yard, may extend to six (6) feet of a side lot line, driveways may extend to four (4) feet of a side lot line and storage sheds, which are located behind the dwelling within the rear yard may extend to eighteen (18) inches of a side yard unless a fence is erected on the property along the side yard line. In such case the storage shed may extend eighteen (18) inches of the fence or fence post whichever is closest. For all driveways, including those regulated under Section 2756, the area between a driveway and the side lot line shall be of a different material than the material used for the driveway and shall not be covered with an impervious surface or crushed stone.
