IX. HOMEOWNER LICENSE EXEMPTION

Supplement #1

The current exemption for "homeowner" was extended to include owner-occupied dwellings of two units or less and to allow such homeowners to engage an individual for hire who does not possess a license, provided that the owner acts as supervisor. (State Building Code Section 110.5)

DEFINITION OF HOMEOWNER:

Person(s) who own a parcel of land on which he/she resides or intends to reside, on which there is, or is intended to be, a one to two family dwelling, attached or detached structures accessory to such use and /or farm structures. A person who constructs more than one home in a two-year period shall not be considered a homeowner. Such "homeowner shall submit to the Building Official, on a form acceptable to the Building Official, that he/she shall be responsible for all such work performed under the building permit. (Section 110.5)

The undersigned "homeowner assumes responsibility for compliance with the State Building Code and other applicable codes, ordinance, rules and regulations, and will comply with the City of New Bedford Building Department minimum inspection procedures and requirements.

Omission of reference to any provision shall not nullify any requirement of this code nor exempt any structure from such requirement.

The applicants understands and warrant that they will comply with all pertinent federal and state statutes, local ordinances and all federal, state, and local regulations, including those of the Architectural Barriers Board, Department of Environmental Protection Agency and may be forwarded for review to all pertinent local city agencies which may express specific concerns. It is understood that the issuance of a permit shall not serve as an acceptance or acknowledgment of compliance nor exempt any structure from such requirement. The permit shall be a license to proceed with the work and shall not be construed as authority to violate, cancel, or set aside any of the provisions of the State Building Code or local code of ordinances, except as specifically stipulated by modification or legally granted variation in accordance with Section 122.0 of State Building Code or local code of ordinances.

I have read the above and sign under pain and penalty of perjury as to the truth of all of the information and statements contained in sections I through IV of this application.

VII. WORKER'S COMPENSATION INSURANCE AFFIDAVIT

I, _____
 (licensee/permittee) with a principal place of business/residence at _____

(City/State/Zip) do hereby certify, under the pains and penalties of perjury, that:

I am an employer providing worker's compensation coverage for my employees working on this job.

Insurance Company _____ Policy Number _____

I am a sole proprietor and have no one working for me.

I am a sole proprietor, general contractor, or homeowner and have hired the contractors listed below who have the following worker's compensation insurance policies:

Name of contractor _____ Insurance Company/policy number _____

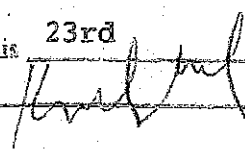

Name of contractor _____ Insurance Company/policy number _____

I am a homeowner performing all the work myself.

NOTE: Please be aware that while homeowners who employ persons to do maintenance, construction or repair work on a dwelling of not more than three units in which the homeowner also resides or on the grounds appurtenant thereto are not generally considered to be employers under the Workers' Compensation Act (GL. C. 152, sect. 1(5)), application by a homeowner for a license or permit may evidence the legal status of an employer under the Workers' Compensation Act.

I understand that a copy of this statement will be forwarded to the Department of Industrial Accidents' Office of Insurance for coverage verification and that failure to secure coverage as required under Section 25A of MGL. 152 can lead to the imposition of criminal penalties consisting of a fine of up to \$1500.00 and/or imprisonment of up to one year and civil penalties in the form of a Stop Work Order and a fine of \$100.00 a day against me.

Signed this 23rd day of March, 2016

2700. - DIMENSIONAL REGULATIONS.

2710. **General.** No structure shall be erected or used, premises used, or lot changed in size or shape except in conformity with the requirements of this Section, unless exempted by this Ordinance or by statute.

2711. Lot change. No existing conforming or nonconforming lot shall be changed in size or shape except through a public land taking or donation for road widening, drainage, utility improvements or except where otherwise permitted herein, so as to violate the provisions of this Ordinance with respect to the size of lots or yards or to create a nonconformity or increase the degree of nonconformity that presently exists.

2712. Merger of lots. Adjacent lots held in common ownership on or after the effective date of this Section shall be treated as a single lot for zoning purposes so as to minimize nonconformities with the dimensional requirements of this Ordinance. Notwithstanding the previous sentence, adjacent lots in common ownership may be treated as separate lots for zoning purposes upon a finding by the zoning enforcement officer that the owner of said lots has expressly exhibited the intent to maintain the lots as separate. In making said finding the zoning enforcement officer shall rely on the following factors:

2712.a. The existence and maintenance of walls or fences along the original lot lines;

2712.b. The fact that the lots are separately assessed for tax purposes;

2712.c. The placement of structures on the various lots.

The manner in which said lots were acquired or the fact that said lots were separately described on a deed shall not be considered by the zoning enforcement officer in making said finding.

2713. Recorded Lots. A lot or parcel of land having an area or frontage of lesser amounts than required in the following schedule of dimensional requirements may be considered as satisfying the area and frontage requirements of this Section provided such lot or parcel of land was shown on a plan or described in a duly recorded deed or registered at the time of adoption of this Ordinance and did not at the time of adoptions of adjoin other land of the same owner available for use in connection with such lot or parcel.

(Ord. of 12-23-03, § 1)

2720. **Table of Dimensional Requirements.** See Appendix B.

(Ord. of 12-23-03, § 1)

2730. **Dimensional Variation.** The Board of Appeals may vary otherwise applicable dimensional requirements pertaining to frontage, lot area, building height and sidelines upon finding that owing to circumstances relating to the soil conditions, shape, or topography of such land or structures and especially affecting such land or structures but not affecting generally the zoning district in which it is located, a literal enforcement of the provisions of the ordinance or by-law would involve substantial hardship, financial or otherwise, to the petitioner or appellant, and that desirable relief may be granted without substantial detriment to the public good and without nullifying or substantially derogating from the intent or purpose of such ordinance or by-law.

(Ord. of 12-23-03, § 1)

2740. Vision Clearance on Corner Lots in Residence Districts. On a corner lot no fence, wall or structure more than three and one-half (3½) feet high above the plane of the established grades of the streets shall be erected on a front or side yard herein established which is included within the street lines of the intersecting streets and a straight line connecting said street lines at points which are twenty (20) feet distant from their point of intersection, measured along said street line, and no trees or hedges which will materially obstruct the view of a driver of a vehicle approaching the street intersection shall be placed or maintained within such area.

(Ord. of 12-23-03, § 1)

2750. Yards in Residence Districts.

2751. Front Yards. No story or part of any building except projecting eaves or uncovered steps shall be erected nearer to the street line of any street on which it fronts than the average alignment of the corresponding stories or parts of existing buildings within two hundred (200) feet on each side of the lot and within the same block and district. Where there is a building on one or both of the adjoining lots, the front yard for a building shall have a depth equal to the average of the front yard depths of the two (2) adjoining lots. A lot without a building shall be counted as having a front yard of the depth required by this Ordinance. If there are no existing buildings on the same side of the street, the average setback alignment of corresponding stories within two hundred (200) feet on each side of and directly opposite the lot shall govern. Nothing in this Ordinance shall require any story or part of a building to set back more than fifteen (15) feet from any street line. One street frontage of a corner lot shall be exempt from these provisions as provided in subsection 2752. The front yard of a lot shall remain clear of debris and junk.

2752. Where the alignment of a building is not controlled by subsection 2751, between every building and the line of the street upon which it fronts there shall be a front yard of a clear depth of fifteen (15) feet, except that on one side of a corner lot a yard of a clear depth of not less than ten (10) feet shall be provided, in which case this distance shall not be considered in determining the front yard depths on such street.

2753. Rear Yards. There shall be a rear yard on every lot and it shall be at least thirty (30) feet deep behind a dwelling, except that a ground story deck or porch, without a permanent roof, a patio, or a pool (including any projections therefrom) may extend to six (6) feet of a rear lot line. An unattached private garage may extend to four feet of a rear yard. A storage shed may extend to eighteen (18) inches of a rear yard unless a fence is erected on the property along the rear yard line. In such case the storage shed may extend to eighteen (18) inches of the fence or fence post whichever is closest. Unless referenced in this Code, nothing may be placed or constructed in or upon the ground within six (6) feet of a rear lot line. Notwithstanding the previous sentence, a fence may be constructed near or along a rear lot line and vegetation may also be planted within six (6) feet of a rear lot line.

2754. Where a lot is more than one hundred (100) feet deep, one-half (½) of the additional depth of the lot in excess of one hundred (100) feet shall be added to said rear yard depth; but in no case shall a rear yard depth in excess of forty (40) feet be required. The setbacks referenced in the previous section shall also apply to this Section.

2755. Side Yards. There shall be a side yard on every lot and it shall be at least ten (10) feet on one side and twelve (12) feet on the other side. The side yard shall be unobstructed from the line of the street to the rear lot line except that open porches, decks, steps, patios and pools (including any projections therefrom), which are located behind the dwelling within the rear yard, may extend to six (6) feet of a side lot line, driveways may extend to four (4) feet of a side lot line and storage sheds, which are located behind the dwelling within the rear yard may extend to eighteen (18) inches of a side yard unless a fence is erected on the property along the side yard line. In such case the storage shed may extend eighteen (18) inches of the fence or fence post whichever is closest. For all driveways, including those regulated under Section 2756, the area between a driveway and the side lot line shall be of a different material than the material used for the driveway and shall not be covered with an impervious surface or crushed stone.

Notwithstanding any provision to the contrary, any driveway existing prior to April 15, 2009, that is made of a material that creates an impervious surface, may be permitted for repair, resurfacing or reconstruction with substantially the same type of material provided that the dimensions of the driveway are not increased and the location of the driveway layout is not altered.

2756. Special Driveway Side Yard Requirements. For existing dwellings on lot sizes of less than five thousand (5,000) square feet, driveways shall not extend to the side lot line closer than ten (10) percent of the distance between the side lot line and the principle dwelling. For any driveway in excess of thirteen (13) feet in width, the provisions of Section 2755 regulating driveway setbacks shall apply and this section shall not apply.

(Ord. of 12-23-03, § 1; Ord. of 4-15-10, § 1; Ord. of 10-20-11, § 1; Ord. of 1-15-13, §§ 1, 2)

2760. Cornices and Belt Courses.

2761. A cornice shall not project more than one-third (1/3) of the width of a required open space.

2762. A belt course or other ornamental feature shall not project more than nine (9) inches into a required open space.

(Ord. of 12-23-03, § 1)

2770. Courts.

2771. If any part of a story of a nonresidence building is used for offices, studios or workshops which are not lighted from the street or the rear yard, there shall be a court starting not more than fifty (50) feet from the main exterior walls of that story.

2772. If any part of a story is used for living or sleeping rooms which are not lighted from the street or the rear yard, such court shall be required starting not more than two (2) rooms or thirty-five (35) feet from the main exterior walls of that story.

2773. An inner court shall be at least one-third (1/3) as wide as it is high, measured from the sills of the lowest windows served by it to the average level of the tops of the enclosing walls, and shall be at least twice as long as its required width or of an equivalent area, but no court shall be less than ten (10) feet in width.

2774. The minimum width of an outer court shall be double that required in this Section for an inner court.

2775. A cornice or belt course shall not project more than six (6) inches into any inner court.

(Ord. of 12-23-03, § 1)

2780. **Height of Buildings.** The provisions governing the height of buildings in Appendix B shall apply to chimneys, cooling towers, flagpoles, elevator bulkheads, skylights, ventilators, and other necessary appurtenant features usually carried above roofs; to domes, stacks or spires and also to wireless communications facilities.

(Ord. of 12-23-03, § 1)
