- SECTION 3000 GENERAL REGULATIONS
- 3100 PARKING AND LOADING
- 3110 APPLICABILITY
- 3130 TABLE OF PARKING AND LOADING REQUIREMENTS
- APPENDIX C

IX. HOMEOWNER LICENSE EXEMPTION

Supplement #1

The current exemption for "homeowner" was extended to include owner-occupied dwellings of two units or less and to allow such homeowners to engage an individual for hire who does not possess a license, provided that the owner acts as supervisor. (State Building Code Section 110.5)

DEFINITION OF HOMEOWNER:

Person(s) who own a parcel of land on which he/she resides or intends to reside, on which there is, or is intended to be, a one to two family dwelling, attached or detached structures accessory to such use and /or farm structures. A person who constructs more than one home in a two-year period shall not be considered a homeowner. Such "homeowner shall submit to the Building Official, on a form acceptable to the Building Official, that he/she shall be responsible for all such work performed under the building permit. (Section 110.5)

The undersigned "homeowner assumes responsibility for compliance with the State Building Code and other applicable codes, ordinance, rules and regulations, and will comply with the City of New Bedford Building Department minimum inspection procedures and requirements.

Omission of reference to any provision shall not nullify any requirement of this code nor exempt any structure from such requirement.

The applicants understands and warrant that they will comply with all pertinent federal and state statutes, local ordinances and all federal, state, and local regulations, including those of the Architectural Barriers board, Department of Environmental Protection Agency and may be forwarded for review to all pertinent local city agencies which may express specific concerns. It is understood that the issuance of a permit shall not serve as an acceptance or acknowledgment of compliance nor exempt any structure from such requirement. The permit shall be a license to proceed with the work and shall not be construed as authority to violate, cancel, or set aside any of the provisions of the State Building Code or local code of ordinances. except as specifically stipulated by modification or legally granted variation in accordance with Section 122.0 of State Building Code or local code of ordinances.

I have read the above and sign under pain and penalty of perjury as to the truth of all of the information and statements contained in sections I through IV of this application.

VII. WORKER'S COMPENSATION INSURANCE AFFIDAVIT

I, _____
 (licensee/permittee) with a principal place of business/residence at:

(City/State/Zip) do hereby certify, under the pains and penalties of perjury, that:

I am an employer providing worker's compensation coverage for my employees working on this job.

Insurance Company _____ Policy Number _____

I am a sole proprietor and have no one working for me.

I am a sole proprietor, general contractor, or homeowner and have hired the contractors listed below who have the following worker's compensation insurance policies:

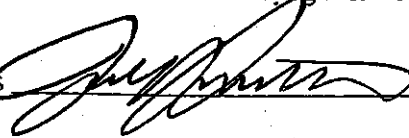

Name of contractor _____ Insurance Company/policy number _____

Name of contractor _____ Insurance Company/policy number _____

I am a homeowner performing all the work myself.

NOTE: Please be aware that while homeowners who employ persons to do maintenance, construction or repair work on a dwelling of not more than three units in which the homeowner also resides or on the grounds appurtenant thereto are not generally considered to be employers under the Workers' Compensation Act (GL. C. 152, sect. 1(5)), application by a homeowner for a license or permit may evidence the legal status of an employer under the Workers' Compensation Act.

I understand that a copy of this statement will be forwarded to the Department of Industrial Accidents' Office of Insurance for coverage verification and that failure to secure coverage as required under Section 25A of MGL 152 can lead to the imposition of criminal penalties consisting of a fine of up to \$1500.00 and/or imprisonment of up to one year and civil penalties in the form of a Stop Work Order and a fine of \$100.00 a day against me.

Signed this  day of July 10th, 20 16

SECTION 3000. - GENERAL REGULATIONS.

100. - PARKING AND LOADING.

3110. **Applicability.** Every building erected, enlarged, converted, or relocated and each use or change of use of land shall be provided with off-street parking spaces and off-street loading spaces in accordance with Section 3130, Table of Parking Requirements.

3111. In the event of the enlargement of a structure existing on the effective date of the ordinance from which this Section is derived, or the construction or relocation of additional structures on a lot, after such effective date, the regulations of this Section shall apply only to the enlargement, construction or relocation thereof, except that any off-street parking and off-street loading facilities established to serve any buildings and any uses prior to such effective date shall not be reduced below the required number.

3112. For a building or premises used for combined purposes, the number of off-street parking spaces and off-street loading spaces shall be determined as the sum of the required number of spaces in each component of the combined use.

3113. Where the computation of required parking spaces and loading spaces result in a fractional number, the required parking spaces shall be the next whole number.

(Ord. of 12-23-03, § 1)

3120. **Special Permit.** Any parking or loading requirement set forth herein may be reduced upon the issuance of a special permit by the Planning Board if the Board finds that the reduction is not inconsistent with public health and safety, or that the reduction promotes a public benefit. Such cases might include:

3121. Use of a common parking lot for separate uses having peak demands occurring at different times;

3122. Age or other characteristics of occupants of the facility requiring parking which reduces auto usage;

3123. Peculiarities of the use which make usual measures of demand invalid;

3124. Availability of on-street parking or parking at nearby municipally owned facilities.

3125. Where a special permit is granted, a reserve area, to be maintained indefinitely as landscaped open space, may be required sufficient to accommodate the difference between the spaces otherwise required and the spaces reduced by special permit. The parking/site plan shall show (in dotted outline) how the reserve area would be laid out in to provide the otherwise required number of spaces.

(Ord. of 12-23-03, § 1)

3130. **Table of Parking and Loading Requirements.** See Appendix C.

(Ord. of 12-23-03, § 1)

3140. **Location and Layout of Parking and Loading Facilities.** Off-street parking and loading, for facilities other than single- or two-family residences, may be provided in structures or in the open air, and shall be subject to the following regulations pertaining to their layout and location:

3141. Parking spaces shall be located on the same lot as the building or use where they are intended to serve, except that they may be provided on an adjoining lot in the same ownership.

3142. Where the provisions of subsection 3141 cannot be satisfied and the parking lot contains five (5) or more required spaces, the required parking spaces may be located on a lot in the same ownership within two hundred (200) feet of the building or lot they are intended to serve.

3143. Parking space for three (3) or fewer vehicles may be provided in the form of a driveway on a lot; the improved surface may be extended to one foot of the side line.

3144. Where a drive or aisle, other than a street, is required to maneuver a vehicle into or out of a parking space, such drive or aisle shall be at least twenty-two (22) feet wide for parking spaces situated at right angles, or nearly right angles to the aisle. For parking spaces situated at an angle of thirty (30) to sixty (60) degrees to the aisle, the required width of the aisle shall be at least fifteen (15) feet.

3145. Open-air off-street parking facilities may be located in required front, rear and side yards, except that in a residential district, no open-air off-street parking space shall be located in front of the dwelling or principal building. Notwithstanding the previous sentence, in cases where a garage faces the frontage of the dwelling and is located beneath the dwelling, open-air off-street parking may be located in front of the dwelling in a

residential district provided that the dwelling is set back a minimum of twenty (20) feet from the front property line and provided that said parking occurs only within the driveway, the width of which shall not exceed the lesser of the width of said garage or eighteen (18) feet. Any driveway in a residential district, requiring more than one curb cut, shall require Site Plan Approval. No driveway in a residential district shall exceed eighteen (18) feet in width.

* 3146. When five (5) or more parking spaces are required on a lot, the provisions of Section 3300 shall apply. All spaces shall be laid out so that vehicles can enter or leave any parking space directly from a drive or aisle other than a street. Additionally, all spaces shall be laid out so the vehicles entering a street may do so facing the street.

3147. All parking spaces and loading areas or berths in the open-air and the access drives or aisles, shall be provided with a concrete or asphalt surface. Compacted gravel or stone shall be permitted only for single- or two-family residential dwellings.

3148. No off-street loading areas or berths shall be laid out in such a manner as will result in loading or unloading being carried on within a street right-of-way or other public property. Each area or berth shall be sufficient size as to accommodate the largest expected truck or tractor trailer common to the building use.

3149. Special Permit for Commercial Parking in Residential Districts. Commercial parking may be allowed on residentially zoned property, held in common ownership and located immediately adjacent to the commercial business to which it is to serve, upon the issuance of a special permit by the Zoning Board of Appeals, if the Board finds that said parking is not detrimental to public health and safety, and that said parking promotes a public benefit. A Special Permit for vehicular access to a building lot accessed from public way that does not constitute frontage of the lot. Upon the issuance of a special permit by the Zoning Board of Appeals, vehicular access may be allowed from a public way that does not constitute the legal frontage of the subject lot if said lot is residentially zoned, if the proposed vehicular access is for the purpose of accessing parking that is located beside or behind the dwelling or principal building, and if the Board finds that said vehicular access promotes a public benefit and is not detrimental to public health and safety. Notwithstanding Section 5240 of Chapter 9 of the Code of Ordinances or any other provision to the contrary, no fee of any kind shall be charged or imposed by the Special Permit Authority to the applicant of a Special Permit applied for under this Section.

(Ord. of 12-23-03, § 1; Ord. of 8-22-06, § 1)

3150. **Size of Parking Space.** A parking space shall be a rectangle at least nine (9) feet by twenty (20) feet exclusive of any required drive or aisle.

3151. The area of required off-street loading space is not to be included as off-street parking space in the computation of required off-street parking space.

(Ord. of 12-23-03, § 1)

3200. - SIGN REGULATIONS.

3201. Purpose.

- (A) Signs constitute a separate and distinct use of the land upon which they are placed and affect the use of adjacent streets sidewalks and other public places and adjacent private places open to the public. The unregulated construction, placement and display of signs constitute a public nuisance detrimental to the health, safety, convenience and welfare of the residents of the City.
- (B) The purpose of article 3200 is to establish reasonable and impartial regulations for all exterior signs and those interior signs designed to attract the attention of persons located outdoors in order to: reduce traffic hazards caused by such unregulated signs which may distract and confuse, and impair the visibility of, motorists and pedestrians; ensure the effectiveness of public traffic signs and signals; protect property values by ensuring the compatibility of property with that surrounding it; provide an attractive visual environment throughout the City; protect the character and appearance of the various neighborhoods in the City; attract tourists to the City; protect the public investment in streets, highways, and other public improvements; and protect and improve the public health, safety, and general welfare. Additionally it is intended to protect the Central Business District and Historic District in accordance with the purposes stated in Section 3200AA.
- (C) The regulations contained in this Section advance these significant government interests and are the minimum amount of regulation necessary to achieve them.

Coverage by buildings (%)	30; 40 on corner lots	30; 40 on corner lots	30; 40 on corner lots	30; 40 on corner lots	buildings; 20 feet for 3 or more stories 30; 40 on corner lots for uses allowed in residential district; 0 for other uses	50	50	50	50	50	more stories
Green Space	35%	35%	35%	35%	35% for uses allowed in residential districts; 0 for other uses	20%	20%	20%	20%	20%	

¹ Provided, however, that no part of any building shall be erected to a height in excess of 1-3/4 times the horizontal distance from its face to the opposite street line.

² Provided, however, that no story or part of any building except projecting eaves or uncovered steps shall be erected nearer to the street line of any street on which it fronts than the average alignment of the corresponding stories or parts of existing buildings within two hundred (200) feet on each side of the lot and within the same block and district. Where there is a building on one or both of the adjoining lots, the front yard for a building shall have a depth equal to the average of the front yard depths of the two (2) adjoining lots. A lot without a building shall be counted as having a front yard of the depth required by this chapter. If there are no existing buildings on the same side of the street, the average setback alignment of corresponding stories within two hundred (200) feet on each side of and directly opposite the lot shall govern. One street frontage of a center lot shall have a clear depth of no less than ten (10) feet, in which case this distance shall not be considered in determining the front yard depths on such street. Nothing in this chapter shall require any building hereafter erected between two (2) existing buildings or immediately adjacent lots to set back from the street a greater distance than that one of such two (2) existing buildings which is farther from the street line.

(Ord. of 12-23-03, § 1)

New Bedford, Massachusetts, Code of Ordinances >> - CODE OF ORDINANCES >> Chapter 9 - COMPREHENSIVE ZONING >> APPENDIX C - TABLE OF PARKING AND LOADING REQUIREMENTS >>
