3. Location: 1771 Acushnet Avenue  
New Bedford, MA  
Assessors Map 108 – Lot 42, 43, 44
4. Zoning District: Mixed use Business/Residence C
5. Existing Site Conditions:

The subject property is a 12,658 square foot (SF) lot located on the northwest corner of Acushnet Avenue and Belleville Road. This site was previously the Sullivan's Brothers Clothing store. The property contained the retail building, a garage structure and a paved parking lot. Approximately 100% of the property was impervious.

6. Proposed Redevelopment:

The Applicant proposes to demolish the existing structures and parking facility and construct 2 new commercial buildings. The new buildings will be placed in the general location of the original building and garage with improved setbacks from the residential properties. The overall project will consist of the following in addition to the new building construction:

- A. Construction of a 13 space parking lot to support the future commercial tenants. The parking spaces and access drive aisles have been designed to meet current City of New Bedford standards.

- B. The property has historically served two commercial buildings on a single lot with shared parking. This condition will remain unchanged.
- C. Vehicular access to the site will be from Acushnet Avenue and from Belleville Road.
- D. Onsite walkways will provide a pedestrian link to both public ways.
- E. A screened dumpster pad will be sited at the northwest corner of the site.
- F. Overall lot coverage will be reduced to 77, a 23% increase in green space.
- G. Two catch basins and a stormwater recharge system will be constructed onsite to further reduce offsite runoff discharges.
- H. New landscaping and site lighting will be provided as shown on the plans.
- I. A new pylon sign is proposed in accordance with the requirements of Section 3250 of the Zoning Ordinance. The sign size, height, and location will comply with the City Ordinance.
- J. The project is projected to take 6 months to construct.

It is important to note that the rear garage style building has historically functioned as a commercial use structure and at no time was utilized for residential purposes. Additionally, the garage most recently contained a small office, storage area, maintenance room unrelated to the clothing store and dry cleaners that operated in the 1771 Acushnet Avenue front building.

## MEMORANDUM

TO: ZONING BOARD OF APPEALS

FROM: STEVEN D. GIOIOSA, P.E.

DATE: AUGUST 1, 2015

SUBJECT: **SPECIAL PERMIT APPLICATION  
PANAGAKOS DEVELOPMENT  
1771 ACUSHNET AVENUE**

The attached Petition for Special Permits is hereby submitted to the Zoning Board of Appeals for your consideration. Two Special Permits are requested for the 1771 Acushnet Avenue property as described below.

### 1. SECTION 2400 – NON-CONFORMING USES & STRUCTURES

The subject property has historically been operated as a mixed use commercial development. The site had two commercial buildings with associated parking on the property. The main building contained a clothing store and dry cleaners and the smaller building contained a machine shop, office and garage space. The smaller building and the off street parking lot were situated on the west side of the site in the Residence C Zoning District.

Under Section 2420 of the Zoning Ordinance, the Board of Appeals may grant a Special Permit for a change of nonconforming use. In this case, the machine shop building, will be converted to a general commercial use. The smaller building size will limit the use to a less intensive activity and will be more in keeping with the adjacent commercial development. Associated with this change in use will be an overall site upgrade which will include improved buffer space, additional landscaping, fences for privacy and increase off street parking.

Under Section 2430 of the Zoning Ordinance, a Special Permit for alteration of a non-conforming structure may be granted by the Board of Appeals. In this case, the two existing structures on a single lot will be reconstructed to comply with current building setback requirements. In the case of the former machine shop building, the original building encroaches on the abutting parcel. The proposal for this project eliminates this encroachment and provides a landscaped buffer with a 6 foot privacy fence to screen the development from the adjacent multi-family residential building.

The new buildings will be aesthetically pleasing and will greatly enhance the appearance of the subject property.

**2. SECTION 3149 – COMMERCIAL PARKING IN A RESIDENTIAL ZONE**

Under this Section of the Zoning Ordinance, the Board of Appeals may issue a Special Permit for a commercial parking lot located in a residential zone. For this project, the proposed westerly parking lot is located in a residential zone and replaces the original parking facility that was located in the same area. The new parking lot will meet City and ADA standards with improved landscaping and pedestrian access.
