2400. - NONCONFORMING USES AND STRUCTURES.

2410. Applicability. This Zoning Ordinance shall not apply to structures or uses lawfully in existence or lawfully begun, or to a building or special permit issued before the first publication of notice of the public hearing required by M.G.L.A. c. 40A, § 5, at which this Zoning Ordinance, or any relevant part thereof, was adopted. Such prior, lawfully existing nonconforming uses and structures may continue, provided that no modification of the use or structure is accomplished, unless authorized hereunder.

(Ord. of 12-23-03, § 1)

2420. Nonconforming Uses. The Board of Appeals may award a special permit to change a nonconforming use in accordance with this Section only if it determines that such change or extension shall not be substantially more detrimental than the existing nonconforming use to the neighborhood. The following types of changes to nonconforming uses may be considered by the Board of Appeals:

2421. Change or substantial extension of the use;

2422. Change from one nonconforming use to another, less detrimental, nonconforming use.

(Ord. of 12-23-03, § 1)

2430. Nonconforming Structures, Other Than Single- and Two-Family Structures. The Board of Appeals may award a special permit to reconstruct, extend, alter, or change a nonconforming structure in accordance with this Section only if it determines that such reconstruction, extension, alteration, or change shall not be substantially more detrimental than the existing nonconforming structure to the neighborhood. The following types of changes to nonconforming structures may be considered by the Board of Appeals:

2431. Reconstructed, extended or structurally changed;

2432. Altered to provide for a substantially different purpose or for the same purpose in a substantially different manner or to a substantially greater extent;

The reconstruction, extension or structural change of such nonconforming structures so as to increase an existing nonconformity, or create a new nonconformity, including the extension of an exterior wall at or along the same nonconforming distance within a required yard, shall require the issuance of a variance from the Board of Appeals.

(Ord. of 12-23-03, § 1)

2440. Nonconforming Single- and Two-Family Structures. Nonconforming single- and two-family residential structures may be reconstructed, extended, altered, or structurally changed upon a determination by the Inspector of Buildings that such proposed reconstruction, extension, alteration, or change does not increase the nonconforming nature of said structure, and the issuance of a building permit, where applicable. In the event that the Inspector of Buildings determines that the nonconforming nature of such structure would be increased by the proposed reconstruction, extension, alteration, or change, the Board of Appeals may, by finding (which shall not require a super majority), allow such reconstruction, extension, alteration, or change where it determines that the proposed modification will not be substantially more detrimental than the existing nonconforming structure to the neighborhood.

(Ord. of 12-23-03, § 1)

2450. **Abandonment or Non-Use.** A nonconforming use or structure which has been abandoned, or not used for a period of two (2) years, shall lose its protected status and be subject to all of the provisions of this Zoning Ordinance.

(Ord. of 12-23-03, § 1)

2460. **Catastrophe.** Any nonconforming structure may be reconstructed after a fire, explosion or other catastrophe, provided that such reconstruction is completed within twelve months after such catastrophe, and provided that the building(s) as reconstructed shall be only as great in volume or area as the original nonconforming structure unless a larger volume or area is authorized by special permit from the Board of Appeals. Such time for reconstruction may be extended by the Board of Appeals for good cause.

(Ord. of 12-23-03, § 1)

2470. **Reversion to Nonconformity.** No nonconforming use shall, if changed to a conforming use, revert to a nonconforming use.
