2520. Home Occupations by Special Permit. Businesses or professions incidental to and customarily associated with the principal residential use of premises may be engaged in as an accessory use by the owner of that dwelling upon the issuance of a special permit by the Board of Appeals; provided, however, that all of the following conditions shall be satisfied:

2521. The occupation or profession shall be carried on wholly within the principal building, or within a building or other structure accessory thereto, which has been in existence at least five (5) years, without extension thereof.

2522. Not more than thirty (30) percent of the combined floor area of the residence and any qualified accessory structures shall be used in the home occupation.

2523. Only one home occupation may be conducted on the premises.

2524. The home occupation may serve clients, customers, pupils, salespersons, or the like on the premises, if the Board of Appeals determines that the neighborhood will not be detrimentally affected.

2525. Not more than one person not a member of the household shall be employed on the premises in the home occupation.

2526. An unlighted sign of not more than three (3) square feet in area may be permitted. The visibility of exterior storage of materials and other exterior indications of the home occupation, or other variation from the residential character of the premises, shall be minimized through screening and other appropriate devices.

2527. Parking generated by the home occupation shall be accommodated off-street, other than in a required front yard, and such parking shall not occupy more than thirty-five (35) percent of lot area.

2528. The use or storage of hazardous materials in quantities greater than associated with normal household use shall be subject to design requirements to protect against discharge to the environment.

(Ord. of 12-23-03, § 1)

## 2600. LOW-LEVEL RADIOACTIVE WASTE.

2610. Low-level Radioactive Waste or Nuclear Waste Facilities. No facility may be located within the City of New Bedford, the primary purpose or principal activity of which is the commercial collection, processing, reprocessing, storage, burial, incineration, disposal or brokerage of radioactive wastes, including but not limited to waste classified as, low-level radioactive waste.

(Ord. of 12-23-03, § 1)

## 2700. DIMENSIONAL REGULATIONS.

2710. General. No structure shall be erected or used, premises used, or lot changed in size or shape except in conformity with the requirements of this Section, unless exempted by this Ordinance or by statute.

2711. Lot change. No existing conforming or nonconforming lot shall be changed in size or shape except through a public land taking or donation for road widening, drainage, utility improvements or except where otherwise permitted herein, so as to violate the provisions of this

Ordinance with respect to the size of lots or yards or to create a nonconformity or increase the degree of nonconformity that presently exists.

2712. Merger of lots. Adjacent lots held in common ownership on or after the effective date of this Section shall be treated as a single lot for zoning purposes so as to minimize nonconformities with the dimensional requirements of this Ordinance. Notwithstanding the previous sentence, adjacent lots in common ownership may be treated as separate lots for zoning purposes upon a finding by the zoning enforcement officer that the owner of said lots has expressly exhibited the intent to maintain the lots as separate. In making said finding the zoning enforcement officer shall rely on the following factors:

2712.a. The existence and maintenance of walls or fences along the original lot lines;

2712.b. The fact that the lots are separately assessed for tax purposes;

2712.c. The placement of structures on the various lots.

The manner in which said lots were acquired or the fact that said lots were separately described on a deed shall not be considered by the zoning enforcement officer in making said finding.

2713. Recorded Lots. A lot or parcel of land having an area or frontage of lesser amounts than required in the following schedule of dimensional requirements may be considered as satisfying the area and frontage requirements of this Section provided such lot or parcel of land was shown on a plan or described in a duly recorded deed or registered at the time of adoption of this Ordinance and did not at the time of adoptions of adjoin other land of the same owner available for use in connection with such lot or parcel.

(Ord. of 12-23-03, § 1)

2720. Table of Dimensional Requirements. See Appendix B.

(Ord. of 12-23-03, § 1)

2730. Dimensional Variation. The Board of Appeals may vary otherwise applicable dimensional requirements pertaining to frontage, lot area, building height and sidelines upon finding that owing to circumstances relating to the soil conditions, shape, or topography of such land or structures and especially affecting such land or structures but not affecting generally the zoning district in which it is located, a literal enforcement of the provisions of the ordinance or by-law would involve substantial hardship, financial or otherwise, to the petitioner or appellant, and that desirable relief may be granted without substantial detriment to the public good and without nullifying or substantially derogating from the intent or purpose of such ordinance or by-law.

(Ord. of 12-23-03, § 1)

2740. Vision Clearance on Corner Lots in Residence Districts. On a corner lot no fence, wall or structure more than three and one-half (3 1/2) feet high above the plane of the established grades of the streets shall be erected on a front or side yard herein established which is included within the street lines of the intersecting streets and a straight line connecting said street lines at points which are twenty (20) feet distant from their point of intersection, measured along said street line, and no trees or hedges which will materially obstruct the view of a driver of a vehicle approaching the street intersection shall be placed or maintained within such area.

(Ord. of 12-23-03, § 1)

2750. Yards in Residence Districts.

2751. Front Yards. No story or part of any building except projecting eaves or uncovered steps shall be erected nearer to the street line of any street on which it fronts than the average alignment of the corresponding stories or parts of existing buildings within two hundred (200) feet on each side of the lot and within the same block and district. Where there is a building on one or both of the adjoining lots, the front yard for a building shall have a depth equal to the average of the front yard depths of the two (2) adjoining lots. A lot without a building shall be

counted as having a front yard of the depth required by this Ordinance. If there are no existing buildings on the same side of the street, the average setback alignment of corresponding stories within two hundred (200) feet on each side of and directly opposite the lot shall govern. Nothing in this Ordinance shall require any story or part of a building to set back more than fifteen (15) feet from any street line. One street frontage of a corner lot shall be exempt from these provisions as provided in subsection 2752. The front yard of a lot shall remain clear of debris and junk.

2752. Where the alignment of a building is not controlled by subsection 2751, between every building and the line of the street upon which it fronts there shall be a front yard of a clear depth of fifteen (15) feet, except that on one side of a corner lot a yard of a clear depth of not less than ten (10) feet shall be provided, in which case this distance shall not be considered in determining the front yard depths on such street.

2753. Rear Yards. There shall be a rear yard on every lot and it shall be at least thirty (30) feet deep behind a dwelling, except that a ground story deck or porch, without a permanent roof, a patio, or a pool (including any projections therefrom) may extend to six (6) feet of a rear lot line. An unattached private garage or shed may extend to four feet of a rear yard. Unless referenced in this Code, nothing may be placed or constructed in or upon the ground within six (6) feet of a rear lot line. Notwithstanding the previous sentence, a fence may be constructed near or along a rear lot line and vegetation may also be planted within six (6) feet of a rear lot line.

2754. Where a lot is more than one hundred (100) feet deep, one-half ( 1/2) of the additional depth of the lot in excess of one hundred (100) feet shall be added to said rear yard depth; but in no case shall a rear yard depth in excess of forty (40) feet be required. The setbacks referenced in the previous section shall also apply to this Section.

2755. Side Yards. There shall be a side yard on every lot and it shall be at least <sup>TEN (10)</sup> ~~eight (8)~~ feet on one side and twelve (12) feet on the other side. The side yard shall be unobstructed from the line of the street to the rear lot line except that open porches, decks, steps, patios and pools (including any projections therefrom), which are located behind the dwelling within the rear yard, may extend to six (6) feet of a side lot line, driveways may extend to four (4) feet of a side lot line and sheds, which are located behind the dwelling within the rear yard may extend to four (4) feet of a side yard.

(Ord. of 12-23-03, § 1)

2760. Cornices and Belt Courses.

2761. A cornice shall not project more than one-third ( 1/3) of the width of a required open space.

2762. A belt course or other ornamental feature shall not project more than nine (9) inches into a required open space.

(Ord. of 12-23-03, § 1)

2770. Courts.

2771. If any part of a story of a nonresidence building is used for offices, studios or workshops which are not lighted from the street or the rear yard, there shall be a court starting not more than fifty (50) feet from the main exterior walls of that story.

2772. If any part of a story is used for living or sleeping rooms which are not lighted from the street or the rear yard, such court shall be required starting not more than two (2) rooms or thirty-five (35) feet from the main exterior walls of that story.

2773. An inner court shall be at least one-third ( 1/3) as wide as it is high, measured from the sills of the lowest windows served by it to the average level of the tops of the enclosing walls, and shall be at least twice as long as its required width or of an equivalent area, but no court shall be less than ten (10) feet in width.
