## 3. Zoning Classifications

Present Use of Premises: Former Elementary School of Diocese of Fall River

Proposed Use of Premises: 34 Units of Housing for Individuals over 62 years of age.

Zoning Relief Previously Granted (Variances, Special Permits, with Dates Granted):  
None.

## 4. Briefly Describe the Proposed Project:

Petitioner proposes to convert an existing prior nonconforming structure constructed in 1910 as an elementary school by the Roman Catholic Bishop of Fall River consisting of 46,122 square feet on three levels into 34 units of residential housing for individuals over the age of 62. The conversion of the prior nonconforming structure will result on the creation of 31 one bedroom and 3 two bedroom residential units on three levels of the structure with off street parking for 35 vehicles. The project will introduce a modest amount of green landscape in an urban environment where none previously existed. There are adequate public utilities to service the project.

## 5. Please complete the following:

	Existing	Allowed/Required	Proposed
Lot Area (sq ft)	32,010 SQ. FT.	8,000 SQ. FT.	32,010 SQ. FT.
Lot Width (ft)	159.84 FT	75 FT	159.84 FT
Number of Dwelling Units	0	1	34
Total Gross Floor Area (sq ft)	46,122 SQ. FT.	n/a	46,122 SQ. FT.
Residential Gross Floor Area (sq ft)	0		27,039 SQ. FT
Non-Residential Gross Floor Area (sq ft)	46,122 SQ. FT.	0	0
Building Height (ft)	40 FT	45 FT	40 FT
Front Setback (ft)	0 FT	20 FT	0
Side Setback (ft)	0 FT	10 FT	0
Side Setback (ft)	0 FT	12 FT	0

9. OWNERSHIP VERIFICATION

This section is to be completed & signed by the property owner:

I hereby authorize the following Applicant: Cruz Development Corporation

at the following address: 1 John Eliot Square, Roxbury, MA 02119

to apply for: Site Plan Approval Under Section 5400 of Chapter 9 Comprehensive Zoning

on premises located at: 35 Kearsarge Street, New Bedford, MA 02745

in current ownership since: 1910

whose address is: 35 Kearsarge Street, New Bedford, MA 02745

for which the record title stands in the name of: Roman Catholic Bishop of Fall River

whose address is: 450 Highland Street, Fall River, MA 02720

by a deed duly recorded in the:

Registry of Deeds of County: Bristol South Book: 336 Page: 500

OR Registry District of the Land Court, Certificate No.: \_\_\_\_\_ Book: \_\_\_\_\_ Page: \_\_\_\_\_

I/we acknowledge that all information presented herein is true to the best of my/our knowledge. I/we further understand that any false information intentionally provided or omitted is grounds for the revocation of the approval(s). I/we also give Planning Department staff and Planning Board Members the right to access the premises (both interior and exterior) at reasonable times and upon reasonable notice for the purpose of taking photographs and conducting other visual inspections.

## **EXHIBIT “B”**

The locus is situated at 35 Kearsarge Street and is improved with a two-story brick and masonry structure that was constructed circa 1910 by the Roman Catholic Bishop of Fall River as a catholic elementary school. The existing nonconforming structure is a non-residential structure and is situated on a lot of approximately 32,010 square feet. The property is currently situated for zoning purposes in a Residential “A” (RA).<sup>1</sup>

The structure has been deemed to be a prior non-conforming structure by the Zoning Enforcement Officer of the City of New Bedford based on the fact that the structure was constructed circa 1910 which pre-dates the adoption of zoning in the City of New Bedford in 1925.

Cruz Development Corp. (“CDC”) as petitioner/applicant, with the permission of the Roman Catholic Bishop of Fall River, seeks a Special Permit under § 2430 of Chapter 9 City Ordinance for the alteration of the prior non-conforming structure and to convert the subject property into 34 residential dwelling units on three floors of the non-conforming structure. The footprint of the structure will not be altered or expanded. The alterations under § 2430 of Chapter 9 of the City Ordinance will consist of interior alterations of the non-conforming structure from classroom, offices and assemble areas into 34 units of one and two-bedroom apartments for individuals over age 62. The apartments all will have kitchen and bathroom facilities and will vary in square footage from 491 square feet to 974 square feet. There will be laundry facilities on each of the three floors of the structure for residents.

---

<sup>1</sup> St Joseph’s Church and the elementary accessory to the Church were constructed circa 1910 prior to zoning in the City of New Bedford. The elementary school as “accessory” to St. Joseph Parish Church was previously situate on one lot according to the records maintained by the City of New Bedford. The single lot is partly in a Mixed-Use Business District and the Residential “A” Zoning Districts according to the City of New Bedford Zoning Map. However, both the use of the property for a church and parochial school were exempt from zoning pursuant to M.G.L. c. 40A § 3. The subject property of 35 Kearsarge Street is located in the Residential “A” Zoning District according to the current City of New Bedford Zoning Map.

There are no congregate units.

The project is intended to be for elderly residents over age 62 and the structure will be serviced by an elevator to be constructed therein.

The exterior brick façade of the structure will be re-pointed, and sand blasted to restore the exterior of the structure. The roof of the structure will be replaced as well as any outside gutters and down spouts. Additionally, the exterior “hardscape” of asphalt will introduce urban tolerant plantings and trees to the rear of the structure between the off-street parking and the structure where none previously existed.

There will be thirty-five on-site parking space of which 2 will be handicapped.

The project will have the following mix of residential apartments and facilities:

- A. Thirty-one (31) One Bedroom Units
- B. Three (3) Two Bedroom Units

### **Exhibit “B-1”**

The proposal advanced by the petitioner<sup>1</sup> Cruz Development Corporation (“CDC”) is for the conversion of the prior nonconforming structure commonly known as the St. Joseph’s Elementary School located at 35 Kearsarge Street in New Bedford into 34 residential dwelling units for individuals over age 62. The Petition before the Board implicates § 2340 of Chapter 9, Comprehensive Zoning of the City Ordinance (the “Ordinance”). The petitioner is seeking relief from the Board in the nature of a Special Permit under the Ordinance.

A brief narrative of petitioner’s proposal is contained in Exhibit “A” to the Petition which is incorporated herein by reference.

#### **§ 2340 of Chapter 9 of the City Ordinance**

§ 2340 of the Ordinance prescribes that conversions and alterations to prior nonconforming structures requires a Special Permit from the Zoning Board of Appeals (the “ZBA”).

§ 2340 of Chapter 9 of the Ordinance provides in material part, that the conversion, alteration or change of a nonconforming structure can only be made on an award of a Special Permit by the ZBA, based on findings that the proposal is not substantially more detrimental than the existing structure to the neighborhood.

This enactment in the City Ordinance forms the basis upon which the petitioner CDC presents its project proposal to create 34 residential dwelling units with 35 off street parking spaces for individuals over age 62 within the existing nonconforming structure. The residential dwelling units to be created will consist of 1 and 2-bedroom units situated on all three floors of the structure.

The property at 35 Kearsarge Street (“Locus”) is owned by the Roman Catholic Bishop of Fall River a Corporation Sole. The nonconforming structure dates to circa 1910 prior to the adoption of zoning in the City of New Bedford in 1925. The property has been used as an elementary school for Saint Joseph’s Parish community and is exempt from zoning under the provisions of Chapter 40A § 3. The Locus will be situated on a parcel of 32,010 square feet on a plan endorsed by the City of New Bedford Planning Board. The Locus is situated entirely within a Residential “A” zoning district on the City of New Bedford Zoning Map<sup>2</sup>.

---

<sup>1</sup> This petition is advanced with the consent of the property owner the Roman Catholic Bishop of Fall River.

<sup>2</sup> The “unified lot” consisting of St. Joseph’s Church, rectory and the Locus was in a split MUB – Residential “A” zoning district notwithstanding its zoning exemption.

The standard for the relief requested by the Petitioner in the nature of a Special Permit is that the proposal is not substantially more detrimental than the existing structure to the neighborhood.

The Locus is the site of a former elementary school. This use generated much traffic on adjacent streets in a residential neighborhood between the hours of 7:00 AM to 4:00 PM together with the functioning of the adjacent Church which generated additional traffic daily for morning services and funerals. Additionally, the Church generated traffic on streets adjacent to the Locus on Saturdays and Sundays.

The proposal is to introduce 34 units of elderly housing with the creation of 35 off street parking lots. The project is for individuals over after 62 years of age. However, other projects advanced by the petitioner indicate that the age of tenants are generally over age 70 that generate less traffic and demand for parking. The Traffic Study commissioned by CDC indicates that peak hour travel will generate 9 trips in the afternoon. The petitioner believes that the proposal will not significantly introduce more adverse conditions on the immediate neighborhood that the existing school and Church that has coexisted in the neighborhood for over 100 years. The proposal introduces 34 units of needed elderly housing in the north end of the City of New Bedford.

Additionally, under §§ 5300 and 5320 of the Ordinance Special Permits require that the Board makes a written determination, “that the benefit to the City and the neighborhood outweigh the adverse effects of the proposed use, taking into account the characteristics of the site and of the proposal in relation to that site. In addition to any specific factors that may be set forth in this Ordinance, the determination shall include consideration of each of the following:

- Social, economic, or community needs which are served by the proposal;
- Traffic flow and safety, including parking and loading;
- Adequacy of utilities and other public services;
- Neighborhood character and social structures;
- Impacts on the natural environment; and
- Potential fiscal impact, including impact on City services, tax base, and employment.

Petitioner avers that the proposal will introduce 34 units of affordable housing for individual over age 62 that is generally lacking in the north end of the City of New Bedford so that the

proposal meets the needs of the community. The project will introduce a limited amount of extra daily traffic on the streets adjacent to the project due to the age of the population for the project and that have adequate off-street parking facilities.

The locus is serviced by all municipal services and will have a negligible impact on city services.

The project is located within 400 feet of bus service provided by SRTA.

The general area of the project is characterized by many multi-family structures with some single-family residences. The addition of a multi-family structure as petitioner seeks to develop is not out of character with the area. Further, the project will not have any adverse impact on the natural environment as all surface water will filter into an onsite drainage infiltration system with some runoff into existing city drainage infrastructure. The project will introduce a green space of trees and urban tolerant plantings where none previously existed.

Currently, the property is exempt from taxation by the City of New Bedford. The alteration and conversion of the school owned by the Roman Catholic Bishop of Fall River into 34 residential apartments will be taxable structures that will have a positive impact on City finances.

- GENERAL NOTES:**
1. EXISTING CONDITIONS INFORMATION WAS OBTAINED FROM AN ON SITE SURVEY CONDUCTED BY THE ENGINEER, CONSULTANT, ON OR ABOUT MAY 19, 2011.
  2. ELEVATIONS ARE REFERENCED TO NGVD 1988 DATUM.
  3. THE SITE IS NOT LOCATED WITHIN A SPECIAL FLOOD HAZARD AREA ZONE AS DETERMINED FROM THE TOWN OF NEW BEDFORD FLOOD HAZARD MAP (2005/05/03/16) (EFFECTIVE DATE: JULY 18, 2014).
  4. EXISTING UTILITY LINES SHOWN ON THIS PLAN ARE FROM AVAILABLE INFORMATION AND ARE NOT GUARANTEED. THE ENGINEER, CONSULTANT, HAS ASSUMED NO LIABILITY FOR DAMAGES INCURRED AS A RESULT OF CONSTRUCTION OF THE PROJECT. THE ENGINEER, CONSULTANT, HAS ADVISED THE TOWN OF NEW BEDFORD THAT THE PROJECT MAY AFFECT PUBLIC UTILITY ENGINEERING REQUIREMENTS SHOULD BE CONSULTED.
  5. THIS PLAN AND ANY ACCOMPANYING CERTIFICATIONS DO NOT CONSTITUTE A CONTRACT OR A GUARANTEE OF THE ACCURACY OF THE INFORMATION OR THE RESULTS OF THE ENGINEERING SERVICES PROVIDED BY THE ENGINEER, CONSULTANT.
  6. SITE LIGHTING IS PRELIMINARY AND IS SHOWN FOR REFERENCE ONLY. LIGHTING CONSULTANT.
  7. THE CONSTRUCTION SHALL BE CONDUCTED AT 7:00 AM - 5:00 PM AT LOT 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, ## **SECTION “D”**

# Know all men by these presents

that I John B. Cerra and Delia Cerra of New Bedford, County of Bristol and Commonwealth of Massachusetts

in consideration of One Dollar and other valuable considerations paid by Roman Catholic Bishop of Fall River, a Corporation, Sole

the receipt whereof is hereby acknowledged, do hereby give, grant, bargain, sell and convey unto the said Roman Catholic Bishop of Fall River, a certain lot of land with all the buildings thereon situated in said New Bedford bounded and described as follows:—Beginning at the Northwest corner thereof at the intersection of the East line of Acushnet Avenue as now widened with the South line of contemplated Ingraham Street; thence Easterly in said South line of contemplated Ingraham Street about Four Hundred five and 18/100 feet to the West line of contemplated Kearsarge Street; thence Southerly in said West line of contemplated Kearsarge Street One Hundred fifty nine and 84/100 (159<sup>84</sup>/<sub>100</sub>) feet to the North line of contemplated Duncan Street; thence Westerly in said North line of contemplated Duncan Street Three Hundred eighty and 58/100 (380<sup>58</sup>/<sub>100</sub>) feet to the Southeast corner of land now or formerly of John St. Counsel and Sarah J. Holden; thence Northerly by said Counsel and Holden land Ninety six and 9/100 (96<sup>9</sup>/<sub>100</sub>) feet to the Northeast corner thereof; thence Westerly by said Counsel and Holden land about Sixty six and 82/100 feet to said East line of Acushnet Avenue; thence Northerly in said East line of Acushnet Avenue to place of beginning, One Hundred six and 33/100 (106<sup>33</sup>/<sub>100</sub>) feet.

5254  
Cerra  
to  
Roman Catholic Bishop of  
Fall River

To have and to hold the granted premises, with all the privileges and appurtenances thereto belonging to the said Roman Catholic Bishop of Fall River and its <sup>successors</sup> heirs and assigns, to their own use and behoof forever.

And we hereby for ourselves and our heirs, executors and administrators, covenant with the grantee and its <sup>successors</sup> heirs and assigns that we are lawfully seized in fee simple of the granted premises, that they are free from all incumbrances, that we have good right to sell and convey the same as aforesaid; and that we will and our heirs, executors, and administrators shall warrant and defend the same to the grantee and its <sup>successors</sup> heirs and assigns forever against the lawful claims and demands of all persons.

And for the consideration aforesaid we the said John B. Perra and Delia Perra husband and wife do

hereby release unto the <sup>said</sup> grantee and its <sup>successors</sup> heirs and assigns all right of or to both <sup>tenure</sup> ~~tenure~~ and homestead in the granted premises, and all other rights and interests therein.

In witness whereof we the said John B. Perra and Delia Perra

hereunto set our hand and seal this sixteenth day of August in the year one thousand nine hundred and ten.

Signed and sealed in presence of

}	<u>John B. Perra</u>	(L.S.)
	<u>Delia Perra</u>	(L.S.)

Commonwealth of Massachusetts.

Bristol ss. New Bedford August 16 1910. Then personally appeared the above-named John B. Perra and acknowledged the foregoing instrument to be his free act and deed, before me—

Laurence S. Perry  
Justice of the Peace.

**IX. HOMEOWNER LICENSE EXEMPTION****Supplement #1**

The current exemption for "homeowner" was extended to include owner-occupied dwellings of two units or less and to allow such homeowners to engage an individual for hire who does not possess a license, provided that the owner acts as supervisor. (State Building Code Section 110.3)

**DEFINITION OF HOMEOWNER:**

Person(s) who own a parcel of land on which he/she resides or intends to reside, on which there is, or is intended to be, a one to two family dwelling, attached or detached structures accessory to such use and/or farm structures. A person who constructs more than one home in a two-year period shall not be considered a homeowner. Such "homeowner" shall submit to the Building Official, on a form acceptable to the Building Official, that he/she shall be responsible for all such work performed under the building permit. (Section 110.3)

The undersigned "homeowner" assumes responsibility for compliance with the State Building Code and other applicable codes, ordinance, rules and regulations, and will comply with the City of New Bedford Building Department minimum inspection procedures and requirements.

HOMEOWNERS SIGNATURE \_\_\_\_\_

**X. CONSTRUCTION DEBRIS DISPOSAL****Supplement #2**

In accordance with provisions of Massachusetts General Law C40, S54, debris resulting from this work shall be disposed of in a properly licensed solid waste disposal facility as defined by Massachusetts General Law C111, S150A

The debris will be disposed of in: \_\_\_\_\_

**Number of Parking Spaces Required – Residential Unit**

**Number of Space required = 2 Parking Spaces/Residential Unit x 34 Residential Unit = 68 Parking Spaces**

**Number of Parking Spaces Provided = 35 Parking Spaces as per plan submitted**

**Number of Parking Spaces Required for Relief = 33 Parking Spaces**

## **SECTION “G”**

# DEVELOPMENT IMPACT STATEMENT

## FOR

### 35 KEARSARGE STREET – NEW BEDFORD

#### A. Physical Environment

The property that is the subject of this application is the former St. Joseph - St. Theresa's Elementary School constructed circa 1910 prior to the adoption of zoning and situated at property known and numbered as 35 Kearsarge Street. The Locus is bounded on the north by Ingraham Street, the east by Kearsarge Street and on the south by Duncan Street on a parcel of land containing 32,010 square feet (the "Building"). The front of the building faces the rear of St. Joseph – St. Theresa's Roman Catholic Church. The Building is of brick and masonry construction with a basement and two floors. The building has an exterior footprint of 15,374 square feet.

The exterior of the building will be rehabilitated, which will include, among other things, cleaning and/or sandblasting and re-pointing of the existing brick facade, and the installation of new windows. The rehabilitation of the exterior of the building, is proposed to preserve its historic character. A new roof will be installed as part of the building's exterior rehabilitation. The site will be improved by the resurfacing the parking area to service the proposed development for off-street parking.

The project will introduce a modest landscaping design of plantings with lighting in an urban setting where none previously existed. The design will enhance the visual character of the site over what presently exists.

#### B. Surface Water and Subsurface Conditions

1. **The location, extent, and type of existing water and wetlands, including existing surface drainage characteristics, both within and adjacent to the site.**

Adjacent to the Building site are existing municipal roadways with curbing, curb inlets, manholes and storm drains along Ingraham, Duncan and Kearsarge Street. The entire site currently drains by sheet flow off-site into the municipal drainage system. A drainage infiltration system will be incorporated into the proposed project.

2. **Proposed alterations of shorelines, marshes, or seasonal wet area.**

There are no alterations to resource areas proposed.

3. **Limitations imposed on the project by the site's soil and water conditions.**

There are no known limitations imposed by soil conditions.

There are no known limitations related to groundwater levels.

- 4. Impact upon ground and surface water quality and recharge, including estimated phosphate and nitrate loading on groundwater and surface water from septic tanks, lawn fertilizer, and other activities within the site.**

None as onsite water runoff will be to an onsite drainage infiltration system and then to the existing municipal infrastructure.

**C. Circulation Systems**

- 1. Project the number of motor vehicles to enter and exit the site per average day and peak hour.**

A traffic study was performed by McMahon Transportation Engineers & Planner in which they opine based on the Institute of Transportation Engineers (ITE) Trip Generation Manual, 10<sup>th</sup> Edition for Senior Adult Housing based on 39 units as follows:

<b>Day of the Week</b>	<b>Peak AM Hour</b>	<b>Peak PM Hour</b>	<b>Saturday Midday Peak Hour</b>
Weekday	In-2 Out 4 Total 6	In-5 Out-4 Total 9	
Saturday			In-7 Out-4 Total 11

The maximum number of trips per hour occurs Midday on Saturday. The greatest peak hour volume occurs during the week in the afternoon. See, McMahon Transportation Engineers & Planners Traffic Assessment ("Traffic Assessment") attached hereto as Appendix A.

- 2. Number of existing motor vehicles utilizing streets adjacent to the site per day and during peak hour.**

See, Traffic Assessment.

- 3. Describe the impact of proposed traffic on adjacent streets providing access to the site.**

The Traffic Assessment report prepared finds that the trip generation from the Senior Living Development will have a minimal impact on proposed traffic on the adjacent streets.

**D. Support Systems**

- 1. Water Distribution**

The Building is served by municipal water. The service will be upgraded to service domestic water service for 34 residential units and a dedicated service line will be

installed which will be sized adequately for the installation of fire sprinkler service in the Building. There are fire hydrants located adjacent to the site on nearby roadways.

## **2. Sewer Disposal**

The Building currently discharges through a sewer service connection to the City of New Bedford's municipal sewer system. The anticipated average sewer flows are 4070 gallons per day based on 37 bedrooms with a flow of 110 gallons per bedroom. There are no sanitary sewer site improvements proposed.

## **3. Refuse Disposal**

The refuse from the project will be disposed of under private contract with a solid waste hauler. There will be no requirement that the City of New Bedford provide refuse disposal at the Site.

## **4. Fire Protection**

The Building will be retrofitted with an interior fire suppression sprinkler system on all levels to meet current state building code.

## **5. Recreation**

In the vicinity of the project site, is a Brooklawn Park and a nearby public library.

## **6. Schools**

The proposed project is for individuals over age 62. The best forecast is that there will be no impact on the New Bedford School System.

## **E. Phasing**

The project will not be phased.

RE: **Traffic Assessment – New Bedford Senior Living Development**  
**35 Kearsarge Street, New Bedford, MA 02745**

Dear Mr. Cruz,

McMahon Associates has completed a traffic assessment for the proposed New Bedford Senior Living Development (herein referred to as the “Project”) to be located at 35 Kearsarge Street in the City of New Bedford, Massachusetts, as shown in Figure 1. As part of this assessment, McMahon reviewed existing traffic count data and crash data in the study area, estimated the trip generation for the Project, and performed field measurements of the sight distance from the proposed site driveways.

The site is currently occupied by a vacant school building with a gross floor area of approximately 15,374 square feet. The site shares a parking lot with the adjacent church to the west, and is abutted by residential properties. The Project would include the renovation of the existing school building and conversion to an affordable senior housing complex with 34 total dwelling units, which would include a mix of one-bedroom and two-bedroom units. Based on the most recent site plan, prepared by SITEC Inc. and dated July 2021, the Project would provide a total of 35 on-site parking spaces for residents and visitors, including two wheelchair-accessible spaces, in the existing parking lot on the west side of the site. On-street parking is available on Ingraham Street, Duncan Street and Kearsarge Street. Site access would be provided by two unsignalized driveways: one on Ingraham Street and one on Duncan Street.

The Project site is served by the Southeastern Regional Transit Authority (SRTA) Bus Route 2, which provides weekday and Saturday service between the SRTA Terminal and Lund’s Corner via Acushnet Avenue. Bus stops are located on Acushnet Avenue at its intersections with Ingraham Street and Duncan Street, approximately 400 feet west of the Project site.

Figure 1  
Site Location Map  
New Bedford Senior Living  
New Bedford, Massachusetts

### ***Existing Traffic Volumes***

The Massachusetts Department of Transportation (MassDOT) Traffic Count Database System was reviewed to determine if there are any existing traffic count data in the study area. According to the Database, there are no traffic count data available on Acushnet Avenue adjacent to the Project site, nor are there any data on Ingraham Street, Duncan Street or Kearsarge Street. However, 24-hour Automatic Traffic Recorder (ATR) data are available on Acushnet Avenue at its intersection with Dawson Street, approximately 2,300 feet north of the Project site. These ATR data were collected between October 22 and October 27, 2019.

In order to account for seasonal variation in the Acushnet Avenue ATR data, continuous count data from MassDOT continuous count station 38 were reviewed. This count station is located on I-195 over the Acushnet River in New Bedford. Based on the seasonal adjustment trends of the data, traffic counts collected during the month of October are approximately 1.0 percent higher than those collected in the average month. Therefore, in order to provide a conservative traffic volume estimate, the ATR data on Acushnet Avenue were not seasonally adjusted.

The October 2019 ATR data obtained at the Acushnet Avenue/Dawson Street intersection to the north of the Project site indicate that Acushnet Avenue carries an Average Daily Traffic (ADT) volume of approximately 10,100 vehicles per day. Project trips would be expected to have an approximately 50-50 northbound/southbound directional split, with residents accessing commercial and service-based land uses to the north and south of the Project site.

### ***Crash Data***

Crash data for the study area intersections were obtained from the MassDOT IMPACT Crash Portal for the most recent five-year period available. These data include yearly crash summaries for the years 2014 through 2018. Using the calculated Acushnet Avenue ADT, the crash rates were calculated at the study area intersections to determine whether the crash frequencies at in the study area are unusually high given the travel demand. The intersection crash rate is expressed in crashes per million entering vehicles (MEV). The calculated crash rates were then compared to the average rate for unsignalized intersections statewide and within MassDOT District 5. For unsignalized intersections, the statewide and MassDOT District 5 average crash rates are both 0.57 crashes per MEV, respectively.

The unsignalized intersection of Acushnet Avenue and Ingraham Street experienced one reported head-on collision over the five-year period analyzed. This collision resulted in non-fatal personal injury and equates to an intersection crash rate of 0.05 crashes per MEV, which is significantly below both the statewide and MassDOT District 5 averages for unsignalized intersections.

The unsignalized intersection of Acushnet Avenue and Duncan Street experienced one reported rear-end collision over the five-year period analyzed. This crash resulted in property damage only. Two additional non-intersection collisions were reported on Duncan Street, both of which involved parked vehicles. The calculated intersection crash rate at the intersection of Acushnet Avenue and Duncan Street is 0.05 crashes per MEV, and is therefore significantly below the statewide and MassDOT District 5 averages for unsignalized intersections.

There were no reported crashes on Kearsarge Street at its intersections with Ingraham Street or Duncan Street within the five-year period analyzed.

Based on a review of available crash data, the roadway network in the vicinity of the Project site does not appear to have any existing safety deficiencies.

#### ***Trip Generation Data***

A trip generation assessment was completed to project the number of trips to and from the Project site. The following time periods were considered as part of this assessment: weekday morning peak hour, weekday afternoon peak hour, and Saturday midday peak hour. To establish the trip generation estimates, the Institute of Transportation Engineers (ITE) publication, *Trip Generation Manual, 10<sup>th</sup> Edition* was used as a reference. ITE is a national research organization of transportation professionals and their publication provides traffic generation information for various land uses compiled from studies conducted by members nationwide. This reference establishes vehicle trip rates based on actual traffic counts conducted at similar existing facilities.

Vehicle trip generation estimates for the Project were established based on ITE data for Land Use Code 252 (Senior Adult Housing – Attached). Table 1 below presents the projected site trips associated with the Project.

**Table 1 – Vehicular Trip Generation**

Description	Weekday AM Peak Hour			Weekday PM Peak Hour			Saturday Midday Peak Hour		
	In	Out	Total	In	Out	Total	In	Out	Total
Proposed New Bedford Senior Living Development <sup>(1)</sup>	2	4	6	5	4	9	7	4	11

(1) ITE Land Use Code 252 (Senior Adult Housing - Attached), based on 34 dwelling units.

As shown in Table 1, the Project is projected to result in approximately six new vehicle trips during the weekday morning peak hour (two entering vehicles and four exiting vehicles) and approximately nine new vehicle trips during the weekday afternoon peak hour (five entering vehicles and four exiting vehicles). During the Saturday midday peak hour, the Project is projected to result in approximately 11 new vehicle trips (seven entering vehicles and four exiting vehicles).

#### ***Sight Distance***

A field review of the available sight distance was conducted at the locations of the proposed full-access site driveways on Ingraham Street and Duncan Street. The American Association of State Highway and Transportation Officials (AASHTO) publication, *A Policy on Geometric Design*, 2011 Edition, defines the minimum sight distance at intersections. The minimum sight distance is based on the required stopping sight distance (SSD) for vehicles traveling along the main road. According to AASHTO, "If the available sight distance for an entering or crossing vehicle is at least equal to the appropriate stopping sight distance for the major road, then drivers have sufficient time to anticipate and avoid collisions."

There are no posted speed limits on Ingraham Street or Duncan Street under existing conditions. However, the speed limits are considered to be 25 mph based on the residential characteristics of both roadways. Table 2 summarizes the sight distance standards for the proposed site driveways on Ingraham Street and Duncan Street.

**Table 2 – Sight Distance Requirements**

Site Driveway	Looking	Speed Limit (mph)	SSD <sup>(1)</sup> Required (ft)	Sight Distance Measured (ft)	Meets Required SSD?
Ingraham Street Driveway	Left (West)	25	160	283	Yes
	Right (East)	25	160	183	Yes
Duncan Street Driveway	Left (East)	25	160	182	Yes
	Right (West)	25	160	381	Yes

(1) AASHTO stopping sight distance (see AASHTO equations 3-2 and 3-3) for 85<sup>th</sup> percentile speed or posted speed limit.

As shown in Table 2, the available sight distance exiting the proposed site driveways on Ingraham Street and Duncan Street exceeds the AASHTO requirements for SSD based on the logical speed limit on both roadways.

The sight distance measurements in Table 2 assume that parked vehicles are not present within the line of sight at the proposed driveways. However, parking is permitted on both sides of Ingraham Street and Duncan Street under existing conditions, as shown in Figure 2 below. There are no parking restrictions in place anywhere along the roadways, and sight distance may be obstructed by vehicles parked adjacent to the site driveways.

**Figure 2 – Existing On-Street Parking along Duncan Street**

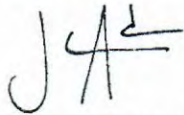

### **Conclusions**

Based on a review of the trip generating characteristics associated with the proposed New Bedford Senior Living Development, the Project is not expected to result in a noticeable increase in the number of vehicle trips travelling to and from the site. Any delay incurred by vehicles would be expected to remain internal to the site, and the Project is not expected to have a significant operational impact on Acushnet Avenue and the surrounding roadway network. A review of the existing crash data from MassDOT shows that there are no immediate safety concerns in the study area.

As mentioned previously, parking is permitted on both sides of Ingraham Street and Duncan Street under existing conditions. To ensure that adequate sight distance is provided for exiting vehicles, it is recommended that parking restrictions be implemented within 20 feet of the proposed site driveways on Ingraham Street and Duncan Street. This could be achieved by erecting "No Parking" signage, or by painting the existing curb to delineate the no parking zones.

Please do not hesitate to contact us should you require any further information.
