## Submission Checklist

The following items should be organized on your submitted flash drive in folders named for each applicable section below (e.g., Application, Financial, etc.). Please check off each item on this list if it is included in your submission packet. **Note: not all items will apply to each project.**

APPLICATION	
<input checked="" type="checkbox"/>	Application Information (page 1)
<input checked="" type="checkbox"/>	Submission Checklist (this page)
<input checked="" type="checkbox"/>	Narrative/Project Management/Category Specific Section/Financial (pages 3-7)
<input checked="" type="checkbox"/>	Project Schedule – Project Budget – Funding Sources Summary (page 8)
<input checked="" type="checkbox"/>	Construction Budget Summary – to be complete for construction projects ONLY (page 9)
<input type="checkbox"/>	Certificate of Vote of Corporation and Tax Compliance Certification (page 10) must be completed by both applicant and co-applicant. Form must be completed by authorized board member. *Certificate of Vote named person must be different person from signer of the certificate.
FINANCIAL	
<input checked="" type="checkbox"/>	1 written quote from a contractor and 1 cost estimate from an architect <b>OR</b> 2 written quotes from a contractor <b>(Quotes must be submitted with application – late submissions will not be accepted)</b>
<input type="checkbox"/>	Proof of secured funding (commitment letters or bank statements), if applicable. <b>Please redact account numbers and any sensitive information.</b>
OWNERSHIP/OPERATION (NON-CITY)	
<input type="checkbox"/>	If the applicant is not the owner, attach documentation of site control or written consent of owner to undertake the project. <i>Applications will not be reviewed without this documentation.</i>
<input type="checkbox"/>	Certificate of Good Standing (if operating as a corporation)
<input type="checkbox"/>	501(c)(3) certification (if operating as a non-profit)
<input type="checkbox"/>	Purchase & Sale agreement or copy of current recorded deed, if applicable.
COMMUNITY SUPPORT	
<input type="checkbox"/>	Letters of support from residents, community groups, city departments, boards or commissions, etc.
PLANS & REPORTS	
<i>The following plans and reports, if available, will strength your application. Submit in digital format only.</i>	
<input checked="" type="checkbox"/>	Renderings, site plans, engineering plans, design/bidding plans, specifications, and any MAAB variance requests.
<input type="checkbox"/>	Applicable reports (21E, Historic Structure Report, appraisals, survey plan, feasibility studies, etc.)
VISUAL	
<input checked="" type="checkbox"/>	Map of the property location (if applicable, show wetlands and wetland buffers, flood plain, water bodies, parks, open spaces, rails, and other features pertinent to the project). Applicants may use the City's interactive mapping website.
<input checked="" type="checkbox"/>	Photos of the project site (not more than four views per site) Digital copies <u>only</u> .
<input type="checkbox"/>	Catalog cuts (i.e. recreation equipment) if applicable.
FOR HISTORIC RESOURCE PROJECTS ONLY	
<input type="checkbox"/>	Documentation stating the project is listed on the State Register of Historic Places or a written determination from the New Bedford Historical Commission that the resource is significant in the history, archeology, architecture, or culture of New Bedford.
<input type="checkbox"/>	Photos documenting the condition of the property. Digital copies <u>only</u> .
<input type="checkbox"/>	Report or condition assessment by a qualified professional describing the current condition of the property, if available.
<input type="checkbox"/>	I/We have read the <b><i>U.S. Secretary of the Interior's Standards for the Treatment of Historic Properties</i></b> and understand that planning for and execution of this project must meet these standards.

## PROJECT NARRATIVE

### 1 GENERAL NARRATIVE (1000 Character Maximum)

- Describe the project's location, the property involved and its proposed use.
- Describe the proposed scope of work.

Roberto Clemente Park is in disrepair. Roberto Clemente Park is in an environmental justice neighborhood qualifying under minority and income. It is directly across from Ben Rose Housing, home to many families and youth. The basketball courts need resurfacing. The courts have several cracks with weeds growing in. The gazebo needs re-painting. The Park's picnic tables are in poor condition and in need of replacement. The City had to remove the outdoor water drinking fountain due to extensive damage.

The project will resurface the basketball courts at Roberto Clemente Park and convert the 1/2 court for 3v3 basketball with programming. We will replace the damaged park amenities, including benches, picnic tables and add a new water bottle filling station. The existing over grown evergreen shrubs will be removed and replaced with planting beds with low growing flowering shrubs to allow for better park visibility and beauty. The project will build a new ADA walkway leading to the gazebo and basketball courts. The project will also add new security lighting to the basketball courts and the main power feed overhead wires will be buried underground making the park eligible for future State grants.

### 2 COMMUNITY NEED (1000 Character Maximum)

- What community need(s) listed in the FY24 CPA Plan will this project address? How does the project benefit the public and what populations(s) will it serve? If it serves a population currently underserved, please describe.
- How does the project preserve and enhance the character of New Bedford?

The park is located across from the Ben Rose Gardens Housing Development. The neighborhood is an EJ community with 73% minority population with a median household income of \$29,939 (65% less than the state median household income) per the Mass Office of Energy and Environmental Affairs (<https://mass-eoea.maps.arcgis.com/apps/webappviewer/index.html?id=1d6f63e7762a48e5930de84ed4849212>).

The park is mostly used by neighboring residents including from the housing development. Activities offered at the park includes picnic areas and basketball courts. This project will rehabilitate the basketball courts and replace the old degraded amenities and add ADA access to the park. The project meets the CPA need of preserving open space. Furthermore the improvements will revitalize the park opening new opportunities to bring new programming for a under-served community serving as a catalyst for transformative change. The improvements will also bring the park aesthetic to the City's Standards enhancing the character of the area and the City.

### 3 GOALS & OBJECTIVES (1000 Character Maximum)

- Describe the project's goals and objectives. The objectives must be specific, measurable, achievable and realistic.
- How does the project meet the general and category-specific priorities outlined in the Community Preservation Plan or other current relevant planning documents?

The project is consistent with the FY24 CPA Plan's Recreation goal of enhancing and maintaining conditions of all recreational assets. The project meets the preservation and rehabilitation of recreational spaces under the CPA Allowable Uses Chart. The project also meets the City's Open Space and Recreation Plan goal1, objective 2 and 4 to expand outdoor recreational and open space opportunities for residents by enhancing and maintaining the condition of sports, recreational and multi-use facilities and address barriers to access to open space and recreation. The rehabilitation will bring the park into alignment with the City's Standard of Appearance.

#### 4 MEASURING SUCCESS (1000 Character Maximum)

- *How will the success of this project be measured?*

A successful project will be measured by the installation of the new amenities, resurfacing of the basketball courts, installation of the new lights, and the completion of the walkway and landscape plantings and adoption of the park by the community for passive and active recreation.

#### 5 COMMUNITY SUPPORT (1000 Character Maximum)

- *Explain the level of community support this project has received. If possible, please include letters of support from any groups or individuals who have endorsed this project.*

This project will address concerns and requests by residents in the neighborhood. Community members have approached PRB in the past regarding the state of the park and damaged amenities. The improvement work will open new venues for programming in the park and and beautify the space for park users. PRB has been in contact with True Bounce regarding programing at the new 3v3 basketball court once the resurfacing work is completed.

#### 6 CRITICAL NEED (1000 Character Maximum)

- *Is this project of an urgent nature?*
- *Is there a deadline or factors not controlled by the applicant (i.e. opportunity for immediate acquisition, opportunity to leverage available non-CPA grant or other financial opportunity)?*
- *For historic resource applications only, is the property at risk for irreparable loss? If so, please include a condition assessment from a qualified professional if available.*

The project is of critical need. The park is currently not up to the City's standards when it comes to public open space. The amenities need replacing and there are several cracks at basketball courts which will get worst over time. There is no ADA access to the gazebo and basketball courts. Although the Beauregard Pina Playground is located in the neighborhood, this park is the only open space in the neighborhood that serves teens and the older demographic.

# PROJECT MANAGEMENT

## 1 APPLICANT INFORMATION (1000 Character Maximum)

- Describe applicant. Is applicant a public entity, private non-profit, private for-profit, an individual, a partnership, or another type of entity? What is their history and background?
- Identify and describe the roles of all participants (applicants, architects, contractors, etc.) including the project manager.
- Describe any past projects of similar type and scale, or experience that demonstrates the applicant's ability to carry out this project.

Public parks, beaches and recreational spaces are managed by the Dept. of Parks Recreation & Beaches (PRB) and maintained by the Dept. of Public Infrastructure (DPI). Project management during design and construction of the project will be by these two departments. PRB has played a vital role in enhancing the quality of life for New Bedford residents since 1892. We provide recreational programs in fitness, the arts, self improvement and other enrichment activities to varied age groups across the City. Our programs provide a safe, structured environment, healthy meals and opportunities for outdoor physical activity to New Bedford's youth. We employ and train over 100 part-time and seasonal staff. It is our responsibility to ensure the satisfactory and sustainable planning, management and maintenance of the City's parks, beaches and recreational facilities and their accessibility to all residents and organizations.

The City of New Bedford PRB and DPI have collaborated successfully to rehabilitate and create multiple park projects. We have collaborated to create new city parks; Abolition Row Park, the Capt. Jack Peterson Dog Park, Custom House Square and the River's End Park and have completed large renovation projects at Hazelwood Park and Pine Hill Park as well as many smaller renovations at parks throughout the city. Each project entailed numerous community meetings, creation of a Master Plan, and all aspects of installation management.

## 2 PROJECT FEASIBILITY (1000 Character Maximum)

- List and explain further actions or steps required for completion of the project, such as environmental assessments, zoning or other permits and approvals, agreement on terms of any required conservation, affordability or historic preservation agreements, subordination agreements, and any known or potential barriers or impediments to project implementation.

No permits are needed for this project at the time. Once the funding is received we will move forward with construction.

## 3 PROJECT MAINTENANCE (1000 Character Maximum)

- Please explain the long-term maintenance plan for the completed project.

Once the project is completed the park maintenance will be carried out by DPI.

## COMPLETE FOR HISTORIC RESOURCE PROJECTS ONLY

### CPA Compliance (1000 Character Maximum)

- Describe how the proposed project complies with the [U.S. Secretary of the Interior's Standards for Rehabilitation](#), as required by the CPA legislation under the definition of rehabilitation.
- Describe how the applicant will ensure compliance with these standards as the project is ongoing, including an identification of who will make historic preservation determinations.

N/A

## COMPLETE FOR PROJECTS WITH ACCESSIBILITY REQUIREMENTS ONLY

### CPA Compliance (500 Character Maximum)

- Describe how the proposed project complies with the [ADA/MAAB Regulations](#).

The project will add a new ADA walkway for ADA access to the gazebo and basketball courts.

## COMPLETE FOR COMMUNITY HOUSING PROJECTS ONLY

### CPA Compliance (500 Character Maximum)

- Describe how the proposed project complies with CPA affordability requirements (100% of AMI for New Bedford)
- Describe the number and types of units (e.g.: 1br, 2br).
- Provide a complete Development Budget and an Operating Budget (for rental properties).

N/A

## PROJECT FINANCIAL INFORMATION

### 1 FINANCIAL INFORMATION (2000 Character Maximum)

- Describe all successful and unsuccessful attempts to secure funding and/or in-kind contributions, donations, or volunteer labor for the project. A bullet point list is acceptable.
- Will the project require CPA funding over multiple years? If so, provide estimated annual funding requirements.
- What is the basis for the total CPA request?
- How will the project be affected if it does not receive CPA funds or receives a reduced amount?

If the project does not receive CPA funding we will have to identify other potential funding sources. If the project only receives partial funding we will proceed with improvements as the budget allows. The concrete walkway to improve ADA access to park amenities is based on an estimate. We have requested but not yet received a quote for this work.

## PROJECT SCHEDULE – PROJECT BUDGET – FUNDING SOURCE SUMMARY

### PROJECT SCHEDULE

Please provide a project timeline below, noting all project milestones. Please note the City Council must approve all appropriations of CPA funds. Grant funding will not be available for disbursement until July 1, 2024.

	ACTIVITY	ESTIMATED DATE
PROJECT START DATE:	Contract is awarded to resurface basketball courts	8/2024
PROJECT MILESTONE:	Park amenities purchased	8/2024
50% COMPLETION STAGE:	Basketball courts resurfaced and new amenities are installed	10/2024
PROJECT MILESTONE:	ADA walkway is installed and landscape work is completed	11/2024
PROJECT COMPLETION DATE:	Construction is fully completed and all invoices are paid	6/2025

### ANTICIPATED PROJECT BUDGET

Please include a **complete itemized budget** of all project expenses, including the proposed funding source for each expense, with your application. Note: CPA funds cannot be used for maintenance.

If the project received CPA funds in another fiscal year, please include this amount on a separate line, not on line 1.

FUNDING SOURCES		EXPENSES				
		STUDY	SOFT COSTS*	ACQUISITION	CONSTRUCTION**	TOTAL
1	NEW BEDFORD CPA FY24***	\$	\$	\$	\$ \$200,425.77	\$ \$200,425.77

## Budget Estimate

Roberto Clemente Park Basketball – New Bedford, MA

To: Valovia Costa – November 08, 2023

### Budget Estimate – Materials and installation

Basketball Courts .....\$18,000 - \$22,000

Adder for Control-Link .....\$5,000

*Sales tax, unloading, installation and bonding are not included.*

*Estimate is for budgetary purposes. Please contact Musco Lighting for an actual quote.*

### SportsCluster® System with Total Light Control – TLC for LED™ technology

#### System Description – SportsCluster® System

- Factory-wired poletop luminaire assemblies
- Factory-aimed and assembled luminaires
- Factory-wired and tested remote electrical component enclosures.
- Pole length, factory-assembled wire harnesses
- Mounting hardware for poletop luminaire assemblies and electrical components enclosures
- Disconnects
- UL listed as a system.
- Enhanced corrosion protection
- Lighting contactor cabinet
- **Adder** - Control-Link® control and monitoring system to provide remote on/off and dimming (high/medium/low) control and performance monitoring with 24/7 customer support.

#### Always Ready to Play – control assuring the results you expect.

- Product assurance and warranty program that includes materials and onsite labor, eliminating 100% of your maintenance costs for 10 years.

#### Estimate is based on:

- Shipment of entire project together to one location
- Voltage and phase system requirements to be confirmed.
- The owner is responsible for getting electrical power to the site, coordination with the utility, and any power company fees.
- Owner of the field is responsible for the structural integrity of the existing poles.

Thank you for considering our Team for your sports lighting needs. Please contact me with any questions.

*Re: Court Refurbishment Proposal*

Dear Val,

Thank you for considering Hinding Tennis for your recreational needs. It is our goal to provide you with the highest quality sport surfacing products and installation in the industry.

We at Hinding Tennis stand committed to excellence and it is our goal to provide you with the highest quality materials. As a current member of the American Sports Builders Association we are always up to date on the newest innovations and industry trends. Our goal is always to exceed your expectations and let the finished product speak for itself.

We know you have many options when choosing a sport-surfacing contractor, therefore we continually strive to provide the most competitive pricing without compromising the quality or workmanship.

All of us at Hinding Tennis thank you for the opportunity to provide you with this proposal and look forward to working with you in the future.

Sincerely,

*Vincent Rapuano*

# HINDING PROPOSAL

## PROCEDURE TO BE AS FOLLOWS:

Furnish all materials, labor and insurance to perform the HINDING TENNIS COURT REPAIRS to (1) 50 x 30 basketball court (South Court).

### Specifications of Services to be Provided:

1. **MOBILIZATION** - Mobilize the necessary equipment to perform the required work for your project as itemized be-low. This fee is associated with the work that is necessary to set up your job and organize the necessary equipment that is needed to load and mobilize to and from the job site each day.
2. **FUEL SURCHARGE-** 3% fuel surcharge.
3. **SURFACE CLEANING-** Using a "High Powered" Cleaning apparatus, Hinding Tennis will thoroughly clean your existing surface free of all algae, mold, dirt and any other foreign materials on your court. We use a Soft Wash solution to "Pre-Soak" your court and loosen and kill the vegetation on your court. Once that is completed, we thoroughly rinse and wash your court using a high pressure hot water system. There will be certain times where the surface cleaner will remove loose and deteriorated paint. We cannot determine at the time of inspection where and when this will happen, however if the material is loose under the coatings, you will want it removed for safety reasons. We can provide a separate quote to repair the affected areas after completion of the cleaning if this arises. We are not responsible for any plant material or vegetation around the court. However, we will "Pre-Soak" any and all plant material that you want protected from the area. It will be soaked with a treatment that will help protect the area. ***This is not your typical so-called "power washing" and if you are painting your court and decide to do it yourself or outsource it, we cannot guarantee the coatings.***
4. **ACRYLIC COLOR COATING** - Furnish and install the (2) coat acrylic color coating surface system to entire area. The Hinding surfacing system consists of two distinct components, 1 Filler Coat and 1 Finish Coat.
5. **LINE STRIPING-** Layout and stripe all lines per NCAA. Apply one coat of acrylic Line primer. Once Line primer has cured apply One (1) coat of textured White Line Paint. This (2) two coat application provides sharp lines and greater durability and longevity. The line paint is textured.

### Pricing as indicated below:

Mobilization	\$ 258.00
Fuel Surcharge	\$ 193.00
Surface Cleaning	\$ 450.00
Color Coating	\$4,000.00
Line Striping	\$2,000.00
Prevailing Wage	\$1,242.00

**Total Budgetary Cost: \$8,143.00**

[www.HindingTennis.com](http://www.HindingTennis.com)

# HINDING PROPOSAL

## PROCEDURE TO BE AS FOLLOWS:

Furnish all materials, labor and insurance to perform the HINDING TENNIS RITEWAY CRACK REPAIRS to (1) 50 x 84 basketball court (North Court).

### Specifications of Services to be Provided:

1. **MOBILIZATION** - Mobilize the necessary equipment to perform the required work for your project as itemized be-low. This fee is associated with the work that is necessary to set up your job and organize the necessary equipment that is needed to load and mobilize to and from the job site each day.
2. **FUEL SURCHARGE-** 3% fuel surcharge.
3. **SURFACE CLEANING-** Using a "High Powered" Cleaning apparatus, Hinding Tennis will thoroughly clean your existing surface free of all algae, mold, dirt and any other foreign materials on your court. We use a Soft Wash solution to "Pre-Soak" your court and loosen and kill the vegetation on your court. Once that is completed, we thoroughly rinse and wash your court using a high pressure hot water system. There will be certain times where the surface cleaner will remove loose and deteriorated paint. We cannot determine at the time of inspection where and when this will happen, however if the material is loose under the coatings, you will want it removed for safety reasons. We can provide a separate quote to repair the affected areas after completion of the cleaning if this arises. We are not responsible for any plant material or vegetation around the court. However, we will "Pre-Soak" any and all plant material that you want protected from the area. It will be soaked with a treatment that will help protect the area. ***This is not your typical so-called "power washing" and if you are painting your court and decide to do it yourself or outsource it, we cannot guarantee the coatings.***
4. **RITEWAY CRACK REPAIRS-** Install the Riteway Crack Repair System to 300 l.f. of cracks. The Riteway Crack Repair method is the only crack repair product on the market today that will keep cracks from returning year after year. Its microsealant technology allows existing cracks on your court to move without breaking the membrane of this system. Riteway Crack Repair will prevent cracks from being visible, however it will not stop new cracks from forming and spreading nor will it keep existing cracks from lengthening or widening.
5. **ACRYLIC COLOR COATING** - Furnish and install the (2) coat acrylic color coating surface system to entire area. The Hinding surfacing system consists of two distinct components, 1 Filler Coat and 1 Finish Coat.
6. **LINE STRIPING-** Layout and stripe all lines per NCAA. Apply one coat of acrylic Line primer. Once Line primer has cured apply One (1) coat of textured White Line Paint. This (2) two coat application provides sharp lines and greater durability and longevity. The line paint is textured.

### Pricing as indicated below:

Mobilization	\$ 887.00
Fuel Surcharge	\$ 665.00
Surface Cleaning	\$1,260.00
Riteway Crack Repairs	\$9,600.00
Color Coating	\$9,320.00
Line Striping	\$2,000.00
Prevailing Wage	\$4,271.00

**Total Budgetary Cost: \$28,003.00**

# PAYMENT SCHEDULE●

---

**STATE SALES TAX WILL BE CHARGED WHERE APPLICABLE. PAYMENT IS EXPECTED UPON TIMELY COMPLETION.**

**CREDIT CARD PAYMENTS WILL REQUIRE A 2% CREDIT CARD PROCESSING FEE.**

Payment Schedule is to be as follows **unless otherwise specified on the contract:**

**For jobs priced below a threshold of approximately \$3,000.00 (subject to vary):**

100% "Full payment", plus applicable tax on total amount, due upon signing and remittance of forthcoming contract if this estimate is approved, before work can begin. Please be ready to include a payment along with a signed contract.

**For jobs priced above a threshold of approximately \$3,000.00 (subject to vary):**

1. 50% "Down payment", plus applicable tax on total amount, due upon signing and remittance of forthcoming contract if this estimate is approved, before work can begin. Please be ready to include a payment along with a signed contract.
2. 30% "Good faith payment", considered due the day we begin work on your project.
3. 20% "Remainder payment", considered due the day we end work on your project.

**PLEASE NOTE:** In the event that payment is not made as specified above, it is agreed that Hinding Tennis, LLC will receive interest at the prevailing wage rate unpaid balance, plus all the cost of collection, including a reasonable attorney's fee. In the event that payment is not made as specified, Hinding Tennis, LLC retains the right to halt works until past due payments are made. Above prices are submitted for approval within sixty days and after that time may be revised. We reserve the right to take before, during & after photos of your particular job & use photos for marketing purposes. We will never give out your name or street address without your consent.

**ACCEPTANCE OF PROPOSAL:** Please call the office (203-285-3055) or one of the owners directly if someone is not in touch with you shortly and you are intent on proceeding with the work as described. We will provide a contract for you to sign and remit with payment so that we may begin work.

# ABOUT US

*"Over the years, Hinding Tennis has helped make GRSC a community club with the best hard court surfaces inside and out, as well as junior lines and stand alone courts, outdoor lighting and pickleball courts. They are a great partner in the tennis business."*

— Sarah Boone, Owner, Guilford Racquet & Swim Club

Since 1994 the Team at Hinding Tennis, LLC has been building superior Recreational Courts for all types of surfaces. We specialize in Post Tension Concrete Courts and our patented Rubberized Cushion System is a very popular surface among many avid players.

Hinding prides itself on quality workmanship and retains over 90% of its work force each season; our crews are extremely knowledgeable and are some of the most experienced in the business.

From Har Tru to Post Tension Concrete to Tennis and Basketball Courts to Playgrounds and just about anything recreational, we offer only the best products and services. We are actively involved in the ASBA (American Sports Builders Association) and we are constantly on the cutting edge of new technology.

Our reputation speaks for itself and clubs, residential, parks, schools and municipalities count on us everyday.

We can customize any job to any size, any color and any speed. Our customer service and sales representatives are extremely knowledgeable of all types of surfaces, coatings and building new courts. So please call us today for a free analysis of your project.

# RITEWAY CRACK REPAIR

## Guaranteed

The RiteWay Crack Repair System (U.S. Patent No. 7,597,503) utilizes an exclusive technology that allows existing cracks on your court to move without breaking the membrane of this system. Many who have tried other systems have complained about "dead spots," "hollow sounds" and "bubbling." Although these other systems have proven to keep cracks from coming back, RiteWay Crack Repair not only keeps cracks from coming back, but its exclusive technology does not have any dead spots, hollow sounds or bubbling. We even offer a 2-year warranty on existing cracks from returning.

The installation is so unique that many tennis court owners can't believe its proven success until they see it for themselves.

No other overlay system can give you the RiteWay results or guarantee. We've seen the other systems on the market – some have success, some have failures – but none of them can give the guarantee that RiteWay offers. Our proven success and durability will last much longer than the written guarantee.

When considering your repair options, there's only one question to ask yourself:

Are you repairing cracks the old traditional way, or are you repairing them the RiteWay?

**Fix Your Cracks - Do It The RiteWay!**

For more information go to [www.ritewaytennis.com](http://www.ritewaytennis.com).

# RESURFACING

## Court Resurfacing

Since 1994, Hinding Tennis has been building and resurfacing tennis courts throughout the United States and in the Caribbean. With headquarters located in West Haven, Connecticut, Hinding Tennis' major client concentration runs up and down the U.S. East Coast.

Resurfacing your tennis court is important in the overall maintenance, upkeep, playability and longevity of the court. Typically, a tennis court should be resurfaced every 4-7 years. This varies depending upon the surface, weather, amount of play, and preservation of the court. Hinding Tennis offers all types of coating and cushion systems and will give you several resurfacing options to keep your court performing at its highest level of playability.

Hinding Tennis resurfaces over 400 courts per year. We retain 90% of our professional workforce yearly, therefore we are not training new court technicians each season. Our quality of workmanship, professionalism and customer service is second to none. Examples of our projects include Chelsea Piers, Stamford CT; U.S. Coast Guard, New London CT; and Match Point Tennis, Brooklyn, NY.

# SQUEEGEE MARKS

Acrylic color surfacing systems are generally applied with a squeegee in multiple coats. Most systems include one or more filler coats, followed by two to three coats of color. Some systems also include texture or cushion coats between the filler and the top coats.

There are several theories regarding the application of color coatings. In any case, coating systems must be applied smoothly to a uniform thickness over the entire court surface. This requires an experienced applicator and careful attention to the technique.

Even when color coatings are applied with care by a skilled operator, some squeegee marks and other slight variations in color and texture are inevitable. This is because the formulation of acrylic causes components to migrate to the edge of the material as it is being applied. As a result, an observer will be able to locate the spot where the acrylic material was poured on the surface, where the squeegee operator turned to make a pass in the opposite direction or where one pass overlapped another. Squeegee marks will be more visible on lighter colors and more common when coatings are applied in hot weather or when they include coarser sand. Humidity, angle of the sun when the acrylic is applied and other factors also may affect frequency and visibility of these marks.

Due to the nature of the material and the human element in tennis court construction, squeegee marks are likely to occur, like marks in newly vacuumed plush carpet or newly mown grass. They will not affect play and will become less visible as the court wears and ages.

While squeegee marks are within industry standard, more serious flaws – ridges, drips, tool marks, foot prints, bucket marks and areas of excess material - are unacceptable and should be corrected by the surfacing contractor.

*Differences in site, weather and soil conditions require variations in construction and repair methods and materials. Readers are advised to consult a qualified contractor or design professional before undertaking construction or repair of a court. Rev. 03/04*

Official 10 and Under Tennis Court Installer

# BIRDBATHS

## LOW SPOTS

**“Birdbath” is a term commonly used in the tennis industry to describe a low area on a tennis court that holds water.**

More precisely, the American Sports Builders Association (ASBA) defines a birdbath as any area where standing water more than 1/16" (2mm – commonly measured using a nickel) remains after drainage of the area has ceased or after one hour of drying at 70 degrees Fahrenheit in sunlight. Birdbaths delay play on the court after rain and may cause staining and/or peeling of the surface.

**Among the causes of birdbaths are:**

1. Unsuitable material in the subsoil;
2. Inadequate drainage around the tennis court;
3. Improper slope or grade;
4. Inadequate compaction of the subgrade; or
5. Paving error

Paving and surfacing, even with laser-guided equipment, involves both skill and judgment. The number of variables impacting the paving and surfacing processes makes it unreasonable to expect perfection. Minor depressions in the surface, those less than 1/16" deep or those that drain or dry in under an hour, are considered within tolerance and are acceptable. In a new or recently resurfaced court, however, the contractor should correct birdbaths.

Because site selection, design and construction can involve compromise, even properly designed and constructed courts may develop birdbaths over time. Tennis courts sometimes are built on sites which are reclaimed or which have been deemed unsuitable for other purposes. In such cases, less than ideal subsoil, grade, or drainage conditions may exist. Additionally, over time, new circumstances may arise which lead to settling or drainage problems.

The owner's expectations regarding repair of birdbaths should be based on the nature of the birdbaths that exist to be repaired and the amount of money budgeted for the repair. Owners also should understand that available repair methods and materials are imperfect. Complete removal of standing water may be impossible. Generally the owner should accept that repair of the birdbaths is only a means of reducing the inconvenience they cause and extending the useful life of the court.

The number, size and depth of birdbaths is another consideration. The existence of multiple birdbaths or major depressions of 1/2" or more may indicate more serious problems. Repairing multiple or deeper birdbaths is labor intensive and often results in cosmetic imperfections, which may require resurfacing to correct. The larger the birdbath, the more difficult it can be to repair.

*Differences in site, weather and soil conditions require variations in construction and repair methods and materials. Readers are advised to consult a qualified contractor or design professional before undertaking construction or repair of a court. Rev. 11/10*

# ACCESSORIES

**Hinding Tennis** is your resource for court equipment and accessories. With close to 20 years of experience in court construction and maintenance, we know what you need to give your game a boost and keep your court in shape. We work with the best suppliers of quality court products. Quality products come from quality manufacturers and we can provide you with a variety of choices to meet your personal preferences.

Fencing, lighting and windscreens, tennis nets, tennis posts and benches. Backboards, score boards, goals, ball machines, roll dries and court brooms

— we've got you covered. Looking for something? Just ask.

Official 10 and Under Tennis Court Installer

# MAINTENANCE

**Maintaining your court** is one of the most important things you can do to preserve the longevity of its appearance. Like changing the oil in your car every 3,000 miles, properly cleaning and inspecting your court once a year is very critical.

To maximize the useful life of any type of court, we recommend that owners develop and implement a regular schedule of maintenance. Regular inspection and repair of minor irregularities is more cost effective than allowing the court to deteriorate to the point of requiring major repairs.

Our maintenance programs include servicing both All Weather and Har Tru Courts. For all weather courts, we recommend you pressure wash once a year, check for cracks, grease net post cranks, check mesh and tighten fence and install your net. Our Har Tru reconditioning includes removing all the dead material. Installing new Har Tru, grooming court, checking fence fabric and tightening, greasing net post cranks and installing your net.

**Call us today** to inspect your court and for a free non-obligational estimate.

# WARRANTIES

Hinding Tennis stands behind their workmanship. All of our work comes standard with limited warranties. Below is list of the work that is guaranteed and what you can expect from us.

**Riteway Crack Repair** — This repair method is a more permanent repair. Its exclusive technology is state of the art - there is no other repair that has the long term effects as the Riteway System. We have seen this repair last for up to 10 years without cracks returning. We do guarantee the existing cracks for two (2) years. We cannot however guarantee against new cracks forming in a new location. *No Dead Spots, Hollow Sounds or Bubbles.*

**Performance Court & Cushion Extreme** — This repair method is the most recommended for the cost. This unique overlay system will cover the entire court and is guaranteed for 3 years. This system will cost you a bit more money than the Riteway Crack Repair, however, not only does this system guarantee the entire court, it offers a “**cushioned**” feel to the court, which is easier on the body/joints, and players often say they can play longer and feel better afterwards. The warranty does not cover any sub surface or drainage issues, unless we have built the court for you. If you want a guarantee for the entire court, this method is your best option.

**Standard Color Coating, DecoTurf Cushion, New Court Construction** — These particular installation methods are considered our “**standard**” methods. This workmanship comes with a 1 year warranty. The warranty covers any peeling, chipping or fading of the acrylic coatings. On new courts, we strongly recommend saw cuts in the asphalt. We cannot guarantee against cracks forming, however, we can guarantee that we will install the best possible base and drainage to help prevent from future cracking. Post Tension Concrete slabs is the only method that is guaranteed from cracking for up to 10 years.

**Optional Crack Filling** — This typically is a temporary quick crack fix and thus makes your courts safe and playable. There is **NO WARRANTY** on this workmanship. In fact, we can guarantee that the cracks we fill will most likely open up within 6 months to 1 year. *Other than price consideration, Hinding Tennis does not recommend this crack repair method.*

None of our warranties are covered by acts of god, excessive wind storms, vandalism or vehicular traffic. Trees and roots that may fall or enter onto the court are also not warrantied. If the court is not properly maintained or serviced over the years, the warranty may be voided. The warranty does not cover drainage issues, sub surface issues or settling issues. Unless we have built the court new for you, we do not know how the court was originally constructed and thus it would be impossible for us to guarantee someone else's work.

When choosing your contractor, make sure you read through their warranty policy; many contractors offer up to 25-year warranties, however these warranties are only as good as the paper they are written on. Any warranty that is longer than 5 years is simply not possible and I can guarantee the contractor will find ways around it if you have an issue. At Hinding Tennis, we will do our best to work with you even when your warranty is no longer valid, because it is the Hinding Tennis reputation on the line.
